## Armed Forces Day Parade to Be Huge Affair

The Tidewater section will see a colorful, precise military cavalcade as opener for this year's celebration of Armed Forces Day, Saturday, May 16, at 11 a. m.

Committee chairmen have planned the largest Armed Forces Day parade in the history of this area. In a procession which is expected to last about one hour, five bands will be playing, eleven marching units will pass in review, and numerous huge floats will tell the Armed Forces story.

The Army band from Fort Eustis will lead off the colorful event which will be staged in the streets of Norfolk, followed by a regiment of soldiers. Color will be added by a Marine Corps band and 600 Marines in dress blues, and two units of Waves, who will march with sailors from the Naval Base and Naval Air Station.

Little Creek Amphibious Base, Oceana Naval Air Station and Naval Beach Group Two will have units participating in the spectacle. Langley Air Force Base will send a unit of airmen and the Virginia State College will enter 150 cadets and an ROTC band.

Amphibious "Dukes" will join the parade, besides tanks, bulldozers and other automotive equipment. Fire engines from the City of Norfolk and surfboats from the Coast Guard will be in the procession.

Floats interspersed between the marching groups and bands will be so huge as to fill the streets, the parade planning committee declares.

The parade will start at the intersection of West Olney Road and Duke Street, go to the Bonoli, south on South to Plume, and then to Grassy Street. It will proceed north on Grassy to High Street, then west past the swimming stand. It will disband two blocks past the stand at the Lee Ferry.

Secretary Flobeg to Speak

Assistant Secretary of the Navy for Air, John F. Flobeg, will be a guest of honor on Armed Forces Day, and will be principal speaker at the annual Armed Forces Day luncheon, which will be held on the hanger deck of an aircraft carrier moored at the Hamp on Roads Port of Embarkation, at the Army Base. The luncheon will be open to the public, but the maximum number that can be accommodated is 500. Tickets are on sale at the Norfolk Chamber of Commerce and will be distributed on a first-come, first-served basis.

## NOVEL IDEA WITH MENUS

At Marshall, owner operator of The Marshall's at 66th street, North Virginia Beach, is shown reading a giant menu just received from Indianapolis for his collection. Looking on is Mrs. Jany Chasse.

## "Menu Room" at Marshall's Grew From Proprietor's Unique Hobby

Everybody helps a collector. People will pass up motorists in distress, yet go to no end of trouble to contribute to someone's collection of elephants with their trunks pointed up, sacred bells, stamps, etc.

Confirmation of the fact is Alford Marshall's hobby of collecting menus. Around two years ago Mr. Marshall of the Marshall's Hotel started picking up menus in restaurants wherever he traveled. Mexico, The Bahamas, Canada, Hawaii, South America, and this country. Some of the menus he has collected are of the world's most famous restaurants, and he has a collection of menus from all over the world started pouring in.

In fact, Mr. Marshall was so

swamped with menus he had to come up with an idea on what to do with them, and he did. Very appropriately he decided to make a shadow box mural of the menus in the Marshall's Dining Room, and call it "The Menu Room."

This alleviated the situation for a while but when guests started adding their bit and his latest contribution, a 23-inch by 28-inch menu from The Jaguar Room in Indianapolis has him stumped. He simply hasn't wall space. At the present time Mr. Marshall places his new menu in the dining room and still they come. Want to start a menu collection? Mr. Marshall will be happy to contribute.

## 'Open House' at Beach Hospital Next Tuesday

Conducting an "open house" on Tuesday, May 12, the Virginia Beach Hospital will observe National Hospital Day. The public is cordially invited to visit the hospital on this day.

National Hospital Day is a day sponsored by the American Hospital Association and proclaimed by the President of the United States and the Governors of all states as a day on which the public may become better acquainted with hospitals and learn something of the services and facilities they provide for the care of the sick.

It has been said that no community is complete without a church, a school and a hospital. The hospital not only cares for the ill of the community but also stands as a teaching institution as well.

In the war-torn world of today hospitals are placed as important units in the national defense program. The nation's hospitals are

## 4-H Club Members Holding Baby Beef Show-Sale Today

Today, May 7, is an important date for seventeen 4-H members in Princess Anne County who are carrying the 4-H Baby Beef Project. Today their annual Show and Sale will be held in conjunction with the 4-H members in Norfolk County, at the Portsmouth Armory on Elm Street, Portsmouth, Va. The show will be held at 10 o'clock a. m. and the sale at 1 p. m.

Practically all of the seventeen members have done an excellent job in feeding out their steers for this show and it is hoped that the business people in Princess Anne County, Norfolk City, and Portsmouth will support them at the Show and Sale next Thursday.

It must be remembered that these boys and girls brought their steers on a very high market, while at the present time the market is comparatively low, which would make it impossible for the members to break even on their work unless the steers can be sold for above market price. These steers are worth more than the average market price as they are tops from an estate standpoint, and everyone buying one of these steers for themselves will find that they will have some mighty good beef to eat through the coming months.

The 4-H members who have feed out Hereford steers and their sponsors are as follows:

Member, Danny Dudley, sponsor, J. B. Dudley; member, Edward Gilbert, sponsor, National Bank of Commerce, Virginia Beach; member, Ralph Gregory, sponsor, J. C. Addington; member, Walter Humphries, sponsor, W. R. Taylor; member, Joseph Key, sponsor, Bank of Virginia Beach, Virginia Beach.

## First List of Contestants is Announced in Big Sun-News "Auto and Cash" Campaign

This edition of The Sun-News carries the first list of persons who have been nominated so far as contestants for the big awards offered in The Sun-News Automobile and Cash offer that is now being launched.

There are still several communities in Princess Anne County and adjoining areas that are not yet represented by contestants, and this race presents a "golden opportunity" for some "live wires" in any of the communities. Contestants are urged to get in on the ground floor, while the race is just getting started, and take a commanding place on the list.

However, it is not enough just to nominate yourself. The nomination is the starting point. Anyone content to rest after being nominated will not get far in this campaign. Action, honest effort and that alone can get results. You can win awards, subscriptions mean votes.

If your friends see that you are doing your part, they will jump in to help you pile up a winning vote total. If, however, they see that you are unappreciative and expecting friends to do it all, they will throw their support elsewhere. It is up to you, candidates! Do YOUR PART: your friends will do theirs.

From the beginning of the campaign up to and including Saturday, May 9, is known as the first and biggest extra vote bonus period for this race.

TO ALL CONTESTANTS

It is important when setting a renewal subscription for the same name under which the subscriber is now getting the paper, also to mark all slips either new or renewal. Be sure to give complete address, RFD route numbers, and box or street address.

Please write subscription slips as follows on business paper:

This is a very necessary and enables every subscriber to receive his paper promptly. It helps you and it helps us.

In order to assist every candidate in The Automobile and Cash Offer, the Sun-News is going to get a good start, and as special inducement for more members to enter the race, the following extra vote offer is made: For each \$15 worth of subscriptions earned in the first period of which ends Saturday, May 9, a 150,000 extra vote "Club Coupon" will be issued. Any amount over \$15 will carry a proportionate number of extra votes on each dollar.

No limit is placed on the number of "Club Coupons" a contestant may secure. This is positively the biggest extra vote offer that will be made during the campaign.

The wise member will get in every possible subscription during the first and biggest extra vote offer. Remember these extra votes in the biggest extra vote offer that will be made during the campaign.

## Chesapeake Club Holds Year-End Meeting Tuesday

The club will also vote on their "First Citizen" at this meeting.

## FARMER NOT SOLE BENEFICIARY OF PRICES

Don't blame the farmer for the high price of food.

Dr. Robert Krueger, associate points out that consumers often fail to realize the price they pay for a particular item in the retail store is not all passed back to the producer.

Take a loaf of bread for instance. A farmer gets less than 2 cents for the wheat that goes into a loaf of bread. The rest goes to processing and distributing agencies.

In 1952 farmers received an average of 63 cents of every dollar consumers spent on wheat; 62 cents for poultry; 59 cents for dairy products; 57 cents for fruit and vegetables; and 50 cents for grain products. The producer's "take" of 63 cents is less than one-half of every dollar spent over the retail counter.

rapidly mobilizing their efforts to place their institutions in readiness for anticipated emergencies as well as having thrust upon them increased responsibility for the physical welfare of the defense worker and his family.

The local hospital is a three-story building and is completely fireproof in its construction. Accommodations for 48 adults and 10 children, together with 10 newborn are provided. The building also provides office space for the three physicians who own the institution.

In addition to the patients' rooms the hospital provides an operating room, delivery room, an emergency room, an x-ray room, laboratories, nursery and diet kitchen.

Equipped with modern nursing, surgical, x-ray and other equipment, it provides an intercommunication system which permits a patient in bed to talk directly to the nurse in another part of the building.

The operating and delivery rooms contain germicidal lights that purify the air within each room.

Helping folks get well is the job of the hospital—24 hours every day of the year. Illness and acci-

dent do not choose daylight hours in which to strike, sudden attacks of disease may come in the "wee wee" hours. In many instances life itself may depend upon the speed with which medicines, trained nursing care, instruments and other things needed by the doctor are made available.

The Virginia Beach Hospital was opened in August of 1946. Since that time, a total of 6,627 patients have entered its doors. There have been 5,196 emergency cases; 1,097 maternity cases; and of these, nine sets of twins.

Surgical operations have numbered 1,712, and 1,137 blood transfusions have been made.

The hospital's 40 employees, nurses, nurses' aids, laboratory and x-ray technicians, dietitian, maids and janitors, is headed by member of the American College Miss Harriet Allstock, who is a Hospital Administrator. Other department supervisors include the following: Mrs. Ruth Reichenbach, Allantown General Hospital; Mrs. Eleanor Cline, surgical supervisor, St. Luke's Hospital, Aberdeen, So. Dakota; Mrs. Tiny Seneca, graduate of the University of Virginia, floor supervisor; Mrs. Goldie Bonney, Norfolk General Hospital; Mrs. Helen Neal, night supervisor; Mrs. Marjorie Hawk, Mrs. Jeanne Loftus, Mrs. Edna Lewis, Mrs. Eugenia Tahan, Miss Edith Phillips, Miss Janette Poe and Mrs. Esther Parfitt.

The business office is managed by R. L. McKinny, assisted by Mrs. Ernestine M. Justice and Mrs. Lois Smith and Mrs. A. F. Owens. X-ray and laboratory technicians include Joseph Killen and Mrs. Margaret Dynarski. The housekeeper is Mrs. M. J. Rush.

For 100 years presidents elected at 20 year intervals have died in office — William Henry Harrison, in 1840; Lincoln, 1860; Garfield, 1880; McKinley, 1900; Harding, 1920, and Roosevelt, 1940.

## Combat Pay for Vets Explained

Some veterans of service in Korea who were discharged prior to July 1952 may not be fully acquainted with the procedures required to establish eligibility for combat pay. For their information the following review of facts is presented.

The Combat Duty Pay Act of 1952 provides for combat pay at the rate of \$45 a month for combat service in the Korean Combat Zone

after May 31, 1950. However, service in Korea does not necessarily entitle an individual to combat pay. To receive the pay a veteran must have been subjected to hostile fire as distinguished from threat of fire, for not less than six days during the month, for which he was paid while serving with a combat unit of regimental size or smaller, or in a vessel or aircraft.

If a veteran received incentive or special pay for aviation, submarine, parachute, medical or dental duty, etc., during a month, he is not entitled to combat pay for that month. Former members of the uniform-

ed services or their survivors may submit their claim on Form DD 667 (Claim For Combat Pay) which may be obtained at their local Post Office.

If you believe that you qualify for combat pay by virtue of being a member of a combat unit, (which means being present and serving with) or by attachment to a combat unit, it is suggested that you attach a detailed statement of the circumstances to your claim form and submit it for examination and consideration. Your statement should show the approximate dates and locations in which you were subjected to hostile ground fire, your

## PEACE, IT'S WONDERFUL!

## DALE CARNEGIE

Levern Dawdy, 11123 University Avenue, Edmonton, Alberta, was attending public school in the sixth grade when he met a fellow student named Vern Gillespie.

Vern was born with his heart on his right side instead of the left, and it also was very weak. One day at school he had a bad attack and was taken home. The doctor was called and told Vern he couldn't possibly live more than six months and then that would only be if he were very careful and did not become excited or even move quickly. Also he would have to spend most of the time in bed or walk very slowly to the front porch and sit in a chair.

Levern used to visit with him quite often. One day the semi-invalid said, "If I am only going to live six months, then I am going to LIVE it. Let's go." He got up and started down the street. From then on, he went back to school, played ball, skated, danced and did everything any normal boy would do, even elected president of the Kappa Kappa Tau school club and was its most active member.

Instead of dying in six months, he lived six years, and probably would have lived longer only one day the class went beyond the city limits, picking flowers for the biology class. A terrific storm

## Bayville Milkers Have Fine Record

Two registered Guernsey cows owned by Bayville Farm, Inc., Norfolk, Va., have completed official Advanced Registry records that were supervised by Virginia Polytechnic Institute and reported to The American Guernsey Cattle Club for approval and publication.

On three times daily milking for 365 days, Dairymaid's Lady of South Lawn, a senior four-year-old, produced 12872 pounds of milk and 629 pounds of butterfat. She is the daughter of the outstanding Guernsey sire, Quail Root Royal Chatter, that has one son and eleven daughters in the Performance Register.

Dairyman K. Jolice produced 16681 pounds of milk and 701 pounds of butterfat three times daily for a ten-month period, starting her record as a six-year-old. "Jolice" is the daughter of the famous Guernsey sire.

## Local Officers at Training School

This Monday two members of the Virginia Beach Police Department entered the Central Police Training School for two weeks of training in general police work. They were Officers Dallas Franklin and William T. Moscoffian.

After these two officers return Chief Johnson reports that two more will be selected to receive this training.

This school for Virginia Police Officers is held in the school building at State Police Headquarters at Richmond and is sponsored by the League of Municipalities and the Virginia Association of Chiefs of Police. The instructors are from the State Police, Richmond City Police, Federal Bureau of Investigation and other experts in fields related to police work.

## New Medicine Aids Dairymen

A disease which seems to pick on the best cows in the nation's dairy herds, cutting their milk production, may now be brought under control with new medicines developed through experimental work at Cornell University.

The disease is known as ketosis, or acetoneemia, and dairymen will soon be able to obtain these new remedies, based on the chemical, sodium propionate. The Du Pont Company is now manufacturing this compound of drug quality, and is beginning to supply it to manufacturers of animal products and veterinary medicines.

This is the first effective oral treatment for ketosis. It can be fed to cows with grain, given them as a bolus (large-sized pill), or as a liquid formulation. Valuable, high-producing dairy cows, under the combined strain of recovering from calving

and maintaining high production early in the milking period, are most susceptible to acetoneemia.

Acetone usually occurs from ten days to six weeks after calving. It is an upset of the cow's metabolism, often associated with glandular disturbances. Though few cows die of the disease, they refuse their feed, and milk production drops. Sometimes the milk becomes "off flavor" and is unfit for sale possibly for several weeks in severe cases if the disease is allowed to run its course.

It is estimated that as many as five per cent of the cows in the nation's dairy herds are afflicted each year; and as many as 15 to 40 per cent of the cows in a single herd may suffer one or more attacks.

## 'Speed' Fentress Freed on Murder Count

A 12-man Princess Anne County jury deliberated one hour and 10 minutes Saturday and returned a verdict of not guilty in the murder trial of A. E. (Speed) Fentress in connection with the death of Victor B. James on March 22.

Willard R. Ashburn, representing Fentress, set the pattern for the defense early in the trial when he was able to place in evidence statements given by James to G. C. Riley, Princess Anne police officer.

Riley testified that James told him in the hospital after the shooting, "I pulled the pistol out of my pocket and pointed it at that boy (meaning the Negro working in the establishment) and asked him for my package." Riley said that James told him that while he was holding the gun, Fentress came into the room and that he (James) was facing Fentress.

The fatal shooting followed a trip to a dance hall run by Fentress at the Migratory Labor Camp, by James and two companions, Mrs. Mattie Dunn and Vincen Bradley, who had spent the day with James riding about the county. Mrs. Fentress, who at present is in the Norfolk City Jail, said that when the whisky ran out, he party went to buy whisky from Fentress.

She testified that she did not leave the car, which Bradley was

driving, but James entered the dance hall, returning soon after, when he remarked that he had not received one of the two pints of whisky he had purchased, and that he was going back to get another. She said she could see that he had a gun.

When she heard a shot, she started to get out of the car, but one of the several Negro boys hanging around the premises said, "Miss, you'd better not go out there."

James came running from the dance hall, she testified, with Fentress in pursuit, holding a

smoking gun in his hand. He had dropped his crutches, which he used, and was "running as fast as he could," she said, but fell into a woodpile.

"When I started to go off to him, this man (Fentress) said, 'he'd kill me, too.'"

She testified that Fentress gave orders to some of the Negro boys to pick up James and to search him. James, she said, was propped up against a tree, with his arms up, during the search. She denied that James carried a gun, or had taken a gun from his automobile, but said Fentress showed her a run which he said he had taken from the man. She had taken from the man, she said, Fentress in pursuit, holding a

## The MIXING BOWL

### IT'S FUN TO COOK

By LUCILE CLARK

Food Editor

See "Let's Cook" every Monday through Friday at 12:45 on WTAR-TV

I think it's fun to cook and I hope you do—but if you don't, maybe some of the suggestions I bring you each week will help you just a little. Plan some of the meals and make your cooking problems just a little more pleasant.

There is certainly no doubt that the tossed green salad is by far the most popular of all salads. It can be made from many recipes and if you don't have a recipe—good old common sense will help you to make a good green salad together in a very few minutes. Just about the easiest of all, in a large bowl—and in the bowl put the greens. To get them greens ready—wash by swirling around in a pan of hot water—lift out the greens and drain on a cake rack, then dry in a towel, wrap in dry towel and store in the crisper in your refrigerator until you're ready to toss. You can use lettuce, romaine, watercress, chikara, escarole, French endive, cabbage—oh, just any ones you like best. Now for that salad bowl—rub it well with a clove of garlic if you like. With a wooden spoon blend together—1-2 teaspoon salt, 1-4 teaspoon pepper, a bit of mustard, 1-4 teaspoon celery salt. (If you do not have garlic and want garlic flavor use garlic salt—add 1-8 teaspoon garlic salt.) Into this blend 2 tablespoons vinegar and 1-2 cup salad oil. Remove salad greens from refrigerator and put in bowl—do not toss yet. Put back in refrigerator until you're ready to serve at the very last minute, oh yes—store your salad plates in a towel, wrap in dry towel and store in the crisper in your refrigerator until you're ready to use.

TRAVEL-PROOF FASHIONS

Most experienced travelers say, "travel light" and that's excellent advice. So, if you hanker to save money, look your best, stay crisp and cool and you'd better look to your travel-proof fashions. The fabrics in a selected wardrobe of separate fashions, why not only cut down the sum of money but reduce those summer cleaning bills as well. Nylon and cotton combined materials in coatsuits and dresses—with many colorful accessories like beads, scarves, belts and so on—and possibly an Orlon fleece jacket (it can be tossed in your washing machine) are a few tips to start with. Teelized cotton twined in a dress and jacket ensemble is neat. Meshwear cotton knitting is an excellent traveler because of its wrinkle-resistant finish. Cotton broadcloth, luxuriously embroidered in an oriental pattern of leaves and flowers, if you're extra handy with the needle, would make a chic date dress. Tucked cotton chiffon in time or lemon, with a matching skirt and matching jacket, would be a beach catcher sure 'nuff for the vacation-minded traveling gal. A bright-but-brief jersey bolero would be a smart addition.

THE QUEEN'S INFLUENCE

Certainly the pomp and ceremony crowning the lovely Elizabeth II in all her regal robes as Queen of England this June has had its influence on the bridal fashion picture for summertime weddings. Queenly satin, heirloom lace, court trains and veils under pearl flower coronets are being chosen throughout America. However, many brides still prefer cotton for this event in the summer months. Designers have fashioned lovely pale organiques and exquisite dotted Swisses as delicately as silk. An all-over embroidered organique wedding dress with a deep neckline, tiny sleeves and ruffled collar, the train creates a truly formal look yet

the refrigerator for at least an hour—so they'll be nice and cold—for your salad. Just before serving—toss greens until every place is well coated with dressing. Now to give variety to your tossed salads—add one or more of the different flavors to your dressing when mixing a pinch of monosodium glutamate, chili sauce; finely cut anchovy filets, chives; pickle relish; finely chopped celery; garlic flavored croutons. You know a dash of this and a pinch of that will give your tossed salad a sparkling personality.

For a real man-size salad and one that usually pleases our big boys. Add to your tossed greens—2 tomatoes diced, 1-2 cup chopped pascal celery, thinly sliced crisp radishes, a few thinly sliced spring onions, 1-2 green pepper—altered very thin, a cup of raw cauliflower—flowerets use very small ones, and if you like cucumber be sure to add one cucumber either sliced thin or diced. When I make this salad I always make a tomato French dressing. Here's my recipe (you can make 3 1-2 cups and store in refrigerator and use as needed.)

Combine in a quart size fruit jar, one that has a tight-fitting top:

- 1 cup tomato sauce
- 2 tablespoons sugar
- 1-2 teaspoon salad oil
- 1 teaspoon paprika
- 1-4 teaspoon celery salt
- 1-2 cup vinegar
- 1-3 cup lemon juice
- 1 teaspoon Worcestershire sauce
- 1 tablespoon grated onion

Shake until thoroughly blended. Chill. Each time, shake well before serving. Sometimes I add 1-4 cup cream to 1 cup of the French dressing and use it with asparagus and hard cooked egg salad. Chill asparagus tips over night or at least 8 hours before serving. Arrange spears on lettuce leaves, use 1 hard cooked egg (quartered) each serving. Generously spoon over the salad—creamy French dressing—really is delicious. Now you'll have to admit I've let you off easy this week. No cooking—no do, just, salad. Suggestions for the hot days—that will soon be here—to stay. Bye now. See you next week.

## People, Places, Stuff . . . and Things

BY ALBEE

Governor John S. Battle, actually gleeful that he was asked not to make a speech—but just to present the Virginia Associated Press Annual Awards—at Washington's National Press Club a week ago (April 22), sighed longingly when he announced Blair Eubanks' WTAR sports news award and said wistfully, "Sports announcing, now that's something I always thought I'd like to do." His thoughtful gesture of stopping in Alexandria, on a fifty dollar award to a high school lad who'd been too ill to journey to Richmond with other students, was a typically thoughtful Battle gesture.

Your Albee, in a recent visit to Washington and New York, was amazed at the enthusiasm of Washingtonians over the acres of azaleas now in full bloom, and at the azalea show in the National Arboretum. Mrs. Douglas McKay, witty wife of the late Secretary of the Interior from Oregon, was one of the ladies accepting refreshments from the National Capital Committee of the Garden Club of America hostesses.

The April in Paris, at the Waldorf-Astoria in Manhattan, was sold out with over 2,000 people paying fifty dollars a ticket for French-American charity. From Paris, on the day of the ball, 25,000 roses were flown to New York to enhance the ballroom which looked like an eighteenth century French courtyard. Jean Dessus, who created a mauve and yellow taffeta and flower petal gown especially for beautiful Anita Colby to wear, and Jacques Fath had flown over for the big event.

A young and fresh look too. Waltz-length wedding dresses are divinely feminine looking. One smart New York bride's gown is featuring "color picture," a brilliant new wedding idea for the bride party with a gown in ice aqua or ice rose and the attendant's gowns, reflecting the contour of the bride's gown.

HE-MAN STUFF AND THINGS

Men are profuse in their praise of the new lightweight tropical fabric of 100 percent "Dacron" polyester fiber. The new suits that Witty Brothers have introduced remain essentially unaltered and the trousers keep their sharp crease, even when worn in the rain. Fabrics of "Dacron," I'm told, have remarkable crease resistance when wet will not shrink or stretch out of size or shape even when the humidity flies. This dimensional stability is expected to prevent bagging, shrinking, and other fabric movement problems which commonly occur in suiting during damp weather or dry cleaning. —Formost style note in tuxedos and dinner jackets is the shawl collar, an even, curving line from the middle of the chest, up around the neck which is dominant in both single and double-breasted jackets. Incidentally, one button at the natural waistline closes the single-breasted jacket. —Once the Duke of Windsor was the top leader of men's fashions in England. Now it is his niece's husband, the Duke of Edinburgh.

THAT GOOD OLD AMERICAN DOLLAR

Italian designers have a great desire to be recognized as Europe's chief style center and hunger for the dollars this would bring to Italy. With this thought in mind, they are renewing efforts in working on the Fall and Winter collections to lure the American buyers. Schubert's Roman designer, turned out a picture collection of billowy skirted evening gowns based on Marie Antoinette styles. His piquant final touch: white wigs in current short half styles to be worn with dresses inspired by the 18th Century. (He's been watching too many of our De Mille super movies, I'd say!)

APPLE BLOSSOM TIME

One of Cecil Chapman's most lush new frocks is a tulle-trousseau treasure titled "Apple Blossom Time" and, since seeing it, I can't get it out of my memory picture. White Swiss yarn-dyed silk organique strewn with real-as-life apple blossoms caught with green stem-and-leaf embroidery, floating over white net and again over yellow tulle. A dream dress for summer night partying and romantic goings on.

This year's sensational feature of the Ringling Bros. circus is a long-haired, golden dressed lot of five years, who proudly strut into the big arena wearing a velvet Lord Fauntleroy suit and climb specially built table-platform and whisker the delight of "Boy and Petal Overture" on a golden sylphus. The platform slowly revolves as the hot-pottery plays on and on. Johnny Ringling North discovered Mister Minto Jr., as he's billed, in Europe as his tutor, a stately row-gay-haired man in white and tails "obscure." Mister Minto Jr. to the platform. Very effective and when the wee one takes those double-over-the-wait bows he's something to behold. Terrific showmanship. The circus spectacle is "Candy Land" and very beautiful, with the floats good enough to eat!

Rozanne Russell, that wonderful merry matron, who is the "Toast Of The Town" in her Broadway show hit, "Wonderful Town," loves fancy bonnets. Your Albee saw her twice in two snappy numbers. Once, on a Sunday noon on the corner of Fifth and 52nd street, wearing a headline Russian mink coat of great beauty and a scoop-bonnet of lemon yellow straw with a great beauty and a red rose perched right atop the headpiece. Again, at the St. Regis Hotel—when we were a guest of Anita Colby's at a benefit luncheon, Roz was wearing a beige straw cloche with a fine veil tied about it. She's a deep-throated talker, always very gay and very interested in every word—the other fellow—is saying which makes her a top chatter in any book, to possess the secret of being a good listener. She's sensational in her mutual comedy. Don't miss it if you're New York bound.

Mr. John, the mad milliner, and his associate-partner, Peter Brandon, sailed last Friday for several months abroad, including attending the Coronation activities. He's taking a terrific coronation hat collection abroad and in every country he'll visit, one of his Continental friends will give a hat fashion tea for him. He's not going to try to do over the English bonnets, he says, but just to "show them a thing or two" in his milliner's connections. He's the boy who can do it!

Rev. James Keller's latest movie show he's directed for the world-famous Christians is called "Faith, Hope and Hogan" and the leading men in it are none other than Bing Crosby, Bob Hope and Ben Hogan. Watch for it on T-V soon. Tiny Adele Simpson has just received the first Cotton Fashion Award. She couldn't have been happier when Secretary of Agriculture Benson presented her with a huge Stangle glass bowl trophy at the Shoreham Hotel in Washington one day last week. Adele designed a fabulous cotton wardrobe for Miss Alice Carr, this year's Maid Of Cotton, which was shown along with other American designers' ideas in fashion cottons, at a swanky cotton fashion luncheon at the Shoreham. Mrs. Simpson, who is barely 4-feet-9-inches high, said she was happy not only with honor for her self but because recognition was given to great American product, important to the economy of our country.

You'll love viewing "Moulin Rouge" when the movie plays at the Regal. It's set against the background of Paris in the 80's. Paris immortalized by the dwarfed artist, Toulouse-Lautrec (played by Jose Ferrer) and the colorful and muted lights director John Houston has used on his artists in many scenes. The Regal's painting is based on Lautrec's paintings instead of an action picture. Albee loved it so much, she sat through two complete shows at New York's Capitol theatre and was just waiting for the usher to ask her to vacate the seat! (Next week, more Merry Matrons memos from the Beach and Manhattan.)

TIP ON USING WAX PAPER

If you are using a piece of waxed paper to roll out pie crust, or the surface and place the waxed side down. The paper will stick to the dampened surface and won't slide or wrinkle.

## ARTHRITIS

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set.

Limited space prohibits telling you more here but if you will write me I will reply at once and tell you how I received this wonderful relief.

## 'Food Excellent' Declares Patron of Colony Restaurant

"Your food is excellent," was the short but very descriptive comment of Mr. W. A. Bentz, of 10020 34th Street, S. W., Seattle, Wash., after dining at the Colony Restaurant on Atlantic Avenue. Mr. P. H. Woolfall, of 106 Holland Avenue, White Plains, New York, writes: "The best dinner in the 5 states we traveled through!" ## Fentress Freed

(Continued from Page One)

described as a mechanic or "something," had asked to take James to a hospital, a request that Fentress refused.

On a cross-examination, Mrs. Dunn admitted that she was also known as Mollie Olsen, Margie, or Margaret Olsen; that she had lived with James prior to the shooting; that she had been convicted 21 times in the city of Norfolk on various charges since 1931.

Bradley, who followed her on the stand, testified that he had left the car and had peered in through a door when James went into the dance hall the second time. He said he heard Fentress when he came back into the building, entered the kitchen the second time ask, "What's the matter, Vic?" Then, Fentress walked straight at James and shot.

Bradley said that he saw a pistol in James' hand when he ran out of the door, but that "up to that time I had not seen or known that he had a gun."

Johnnie L. James, 19, Negro, who said he was sitting on the "stoop" when James went into the building, testified that Fentress, when he followed the wounded man out, said: "You so and so, I ought to kill you."

the wounded man's crutches, and then put him in an automobile and took him to Princess Anne jail, where he had a warrant sworn out for attempt to kill.

"I know that he was right bad," Fentress testified, but, he added, he was not afraid of James.

Roy Cunningham, a Negro from Pensacola, Fla., testified that James held a gun on him after his second entry into the dance hall and asked for Fentress, and that he dodged behind Fentress when the latter came out of the kitchen. Also testifying were Rufus Brock, Jr., Creeds Negro, and Isaac Selby, Back Bay, both of whom were partners at the dance hall, who told of seeing James with his gun on Fentress.

Dr. Arnold Strauss, who performed an autopsy on Jones, gave the cause of death as a hemorrhage in the plural cavity resulting from the wound. He said that the time of the autopsy there was no alcohol in the blood, and while there were traces of paraldehyde, there was not a sufficient amount to be harmful. The autopsy was performed March 25 at the De Paul Hospital morgue.

Dr. Strauss further said that delirium tremens, from which it was later testified James suffered the day of his death, could be activated by disease or injury such as that James received.

Personnel and patients from the Virginia Beach Hospital described the disturbed state from which James was suffering the night before he died (at 3 a. m. March 25).

The shooting of James, who was in his late 50s, occurred Easter Sunday, about 8:30 p. m. His death occurred March 25.

Fentress was freed in a preliminary hearing before Justice J. Davis Reed, Jr., in Princess Anne County Trial Justice Court, on the ground that evidence presented indicated that he acted in self-defense. Subsequent information uncovered by the police department, however, was placed before a grand jury, which found a true bill. The 34-year-old Fentress, who has a record of some 40 arrests but few convictions, has been married three times.

## YELLOWING OF ALFALFA REPORTED IN VIRGINIA

Widespread yellowing of alfalfa is being reported throughout Virginia, and S. B. Penne, plant pathologist at VPI, says poor inoculation probably was the cause.

He explains that the alfalfa was seeded last fall when it was very dry, and that the weather conditions apparently prevented proper inoculation, even when treatment was done properly. Penne said that when the yellowed alfalfa is dug up, there usually are no nodules on the roots, while nearby green alfalfa has many nodules.

Alfalfa diseases also are appearing earlier and are somewhat worse than usual, probably because of the mild winter, Penne said. Stem rot, mildew, and blackstem are fairly serious in the state.

## Model Plane Contest in August Announced by Plymouth Company

The Plymouth Motor Corporation will sponsor its seventh international model plane contest in Detroit August 18-24. President John F. Mansfield announced this week.

Mansfield said the contest will be conducted under a new plan which will permit an increased number of youngsters, an estimated 35,000, to apply for one of the 500 places in the final contest. Invited contestants will be guests of Plymouth at a Detroit hotel for the period of the competition. There will be special events for experienced model plane builders. This year's contest, for the first time, will have events for radio-controlled planes.

"We expect to demonstrate that America leads the world in model aviation," Mansfield said.

Plymouth dealers will sponsor some regional elimination contests. In addition, winners of other contests sanctioned by the Academy of Model Aeronautics will be invited.

The international contest will again be held in Detroit, with free

light events at Schriber Air Force Base, and control-line competition at Belle Isle. More than 40 events are scheduled, including competition in control flying, navy carrier deck operations and launch racing, as well as radio-controlled flights. All previous categories of free flight and control rubber, gas and jet-propelled speed, stunt and scale models will be retained.

Competition in radio-controlled flight will involve the use of miniature broadcasting stations. It has been made possible by new developments in radio control equipment and by the assignment of license-free frequencies for use of model plane flyers.

Entry forms and information on qualifying contests may be obtained from Plymouth dealers in all sections of the country, or by writing The Contest Manager, Box 2118, Detroit 21, Michigan.

The following resolutions were read and presented to Mrs. C. H. Tilbrook at a meeting of the Council of Garden Club last week:

"The Council of Garden Clubs of Princess Anne County and Virginia Beach hereby expresses its appreciation of the work she has accomplished during her first term as President of the Council. In particular, the Council feels that it is in large part due to her vision, her persistency, and her smiling persistence that the

scenic approach to Virginia Beach is being changed from a haphazard collection of unlighted to a beautiful pathway, a development that will bring pride and pleasure to the whole area."

## Council of Garden Clubs Hears Reports Of Beautification Program in County

At the regular meeting of the activities during the past year, the Princess Anne County Council of Garden Clubs held Wednesday at the Bank of Virginia Beach, Mrs. Edmund Burroughs, Mrs. Eugene Bennett and Mrs. John V. Pennington were welcomed as members representing Acredale Garden Club. They reported their club's

the Princess Anne Garden Club, announced the annual Rose Show to be held at the Cavalier Beach Club May 9 and 10, and urged members to enter arrangements and specimens to be judged. Entries are open to anyone desiring to take part, and further information may be had by calling Mrs. Gayle at 321.

Mrs. David Stormont reported that the Birdneck Garden Club decorated the luncheon tables and foyer with floral arrangements for the annual Cape Henry Pilgrimage, Order 1607, which was held at Ft. Story during April.

Mrs. F. A. Van Patten, of the Virginia Beach Garden Club, asked the Council to take into consideration as a project for the next year securing a regular meeting place for all garden clubs.

Mrs. Gilmore Tilbrook, president of the Council, reported that a committee from the Council attended a meeting of the Associated Clubs of Virginia for Roadside Development, which was held recently in Richmond. The purpose of this organization is to "make Virginia roadsides the most beautiful in America." The outstanding project at this time is to have the size and number of signs on the highways cut down and moved a certain distance from the road.

Mrs. Tilbrook also reported the progress being made on the planning of North Atlantic Avenue. Some shrubs and trees originally called for in the planting will not be planted until fall, due to unavoidable delays prolonging the work into hot weather. Among trees to be planted in the fall will be 50 live oaks and a number of wax myrtles. Many of the small pines used in the planting were given by Mrs. J. Davis Reed from her own property. The plants used are purposely small, as this gives them a much better chance to establish themselves to the environment; however, all losses will be replaced. The feed-

er road, on the west side of the highway, will be completed for the entire strip.

The Council will aid in planting the city-owned blocks adjacent to the project. In this area many experimental plants will be used. The landscape gardener from the Cavalier Hotel has met with the State Highway Department landscaper and worked out an over-all plan whereby the Cavalier will fully cooperate with the project.

The Princess Anne Lumber Co. has donated all of the sawdust which is being used in great quantities, at the bottom and on top of all plants. Frank C. Booker and M. J. Farrar are giving the use of their trucks for hauling. Greenbrier Farms is donating numerous plants and is having their gardener do the actual planting in the city blocks at a greatly reduced cost.

Recent contributors to the beautification project are: Leon C. Hall, Mrs. E. Frank DeBerry, Jr., Dr. Walter E. Miller, Rose's 5, 10 and 25-cent Store, and Doyle and Russell.

The following officers were elected from the Council: Mrs. Gilmore Tilbrook, president; Mrs. George Mullen, vice president; Miss Mary Johns, secretary; Mrs. Frank Burleson, treasurer; Mrs. Charles Lovitt, corresponding secretary.

### TRACTOR SAFETY

Tractor accidents are increasing with the increased number and use of tractors on farms, according to the Virginia Rural Safety Council.

In rural Virginia last year, there were 25 deaths caused by machinery—many of them by over-turned tractors.

The National Safety Council estimates that there are 600 to 700 accidental fatalities and 30,000 to 40,000 non-fatal injuries with tractors annually.

## Down the Line with Johnny Bell

"One for all and all for one"

This famous motto of the Three Musketeers brought them safely through many adventures. Usually they were able to survive great peril only by dramatic teamwork. Of course, their adventures were purely fictional, but teamwork can give real-life drama a happy ending too. Lives can be saved by considerate party-line users who give up their lines to others in an emergency.

### Do it the easy way

Remember the story of the fellow who loaded his mule with a sack of potatoes on one side and balanced it with a sack of stones on the other. He made many trips this way until someone suggested that it might be more efficient to balance the first sack with another sack of potatoes.

There's a more efficient way to make Long Distance calls too. When you give the operator the telephone number, instead of just the name and address of the person you want, your calls go through faster.

### May is a good month to —

Make grass silage... Put running water in the kitchen... Put the early pullets out on range... Treat pigs for worms at 9 to 10 weeks of age... Put a one-inch mulch of sawdust on the flower garden... Discuss with the children their plans for summer 4-H projects... Check on canning and freezing supplies and equipment... Clean up winter heating equipment... Ask your county farm or home agent to show you the V.P.I. house plans... Make plans for warm-weather clothing... Be prepared to keep household insect pests under control... Clean up around the farmstead but be careful about starting fires.

## Fenwick Charges Opponent With Long Record of 'Absenteeism'

State Senator Charles R. Fenwick, candidate for the Democratic nomination for Governor of Virginia, said last week that his gubernatorial opponent, "is carrying his Congressional absentee record into his campaign for Governor."

In reply to questions raised by the press on the absence of his opponent from the annual American Day ceremonies at Sweet Briar College, and the sending of a representative to the Richmond American Association of University Women forum Friday night, Senator Fenwick charged that "my opponent is carrying into his campaign for Governor the same absentee record that marked his term in Congress. I predict he will continue to absent himself from the speaking platform whenever I appear either by declining the invitation, or by sending a representative to campaign for him by proxy. He has done this now on at least 10 different occasions. Many important groups, representing large segments of voters, necessarily had to call off meetings when my opponent de-

## County Methodist Men Organize

A new organization of Methodist Men in the South Princess Anne County, Va., has been chartered by Methodist's General Board of Lay Activities in Chicago.

The local group will become one of the 10,000 Methodist Men organizations which the Board plans to charter by 1955.

It is estimated that 2,000,000 men in the Methodist Church are prospective members of Methodist Men clubs. According to Robert G. Mayfield, executive secretary of the Board, "We seek to mobilize through Methodist Men the tremendous power and enthusiasm of the men of the church. Our purpose is to give strength to the program of Christ and His Church through concerted service of men in every local church of Methodism."

S. S. Seabres is president of the newly formed group; R. W. West, secretary.

## Citizens Planning Commission to Meet May 25th

Several hundred Virginia citizens, interested in better community planning, will gather in Charlottesville May 25 for two days of discussion meetings led by prominent speakers, the Virginia Citizens Planning Association announced this week.

The Princess Anne citizens will have important parts on the program. They are Mason Gamage and Rhea Walker, who will describe the planning progress made in Princess Anne.

The three-year-old organization is composed of more than 200 private citizens, town, county, and city officials. All Virginians who desire to improve their communities have been invited to attend the Charlottesville sessions. Herbert F. Schumann, Jr., Fairfax County planning engineer who is president of VCPA, announced last week there will be no registration fee for non-members attending the meetings.

"We want everyone interested in community planning to come to any or all discussions," he told reporters in making the program announcement.

Among subjects to be discussed before adjournment Tuesday, May 26, will be "Getting Your Community Ready for Industry," "How to Get Subdivision and Zoning Ordinances Adopted," "The Changing Economy of the South," and "Technical Assistance for Local Planning."

Two out-of-state experts will team up with 23 Virginians to lead the discussions. They are John A. Parker, head of the Department of City and Regional Planning at the University of North Carolina, and Harold V. Miller, executive director of the Tennessee State Planning Commission.

All meetings will be held at the Monticello Hotel.

Headline the list of Virginia speakers is former Governor Colgate W. Darden, Jr., now President of the University of Virginia.

Captain W. S. Butts, USN, Commanding Officer of the Oceana Naval Air Station, announced today that a thrilling air show will be presented by the station Sunday, May 24, featuring the Navy's world-famous Blue Angels.

The famous Blue Angels will be star performers and in addition there will be numerous other events to keep the interest high throughout the afternoon from 12:30 p. m. until 3:30 p. m. The air show is scheduled to get underway at 2:00 p. m.

The Blue Angels flying sleek Grumman F-9F Panther Jets will flash by at 400 miles an hour doing barrel rolls, loops, half Cuban eights, and reverse half Cuban eights in tight formation.

The program is to take place as a combined air show and open house at the Oceana Naval Air Station, Virginia Beach, Va.

In addition to the air show there will be large static display of the latest type combat aircraft, a helicopter rescue demonstration, a jet assisted take off (JATO) by a P-2V Neptune, a jet squadron takeoff and flyby in squadron formation and a blimp flying by overhead.

The Blue Angels, famous for their precision flying, have performed before an estimated 16,000,000 people. The basic mission of the team, however, is to demonstrate high-speed tactics at Naval Air Stations in the training command to show students both the ultimate in flight maneuverability and the ultimate in formation maneuverability.

Members of the Blue Angels are Lt. Cmdr. A. R. Hawkins (Flight Leader), Lufkin, Texas; LTJG R. E. Ashund, Vancouver, Washington; LTJG Bud Black, Santa Cruz, California; and Lt. F. J. Murphy of Brookfield, Illinois.

## Young Orators Vie for Honors at Optimist Meet

At least one representative from each of the Boys' Clubs sponsored by the 37 Optimist Clubs in the 18th District of Optimist International was expected to vie for top honors in the Oratorical Contest to be held Friday and Saturday at the district convention at the Cavalier Hotel, Virginia Beach.

Optimist International's first Boys' Oratorical Contest was held in 1928 at Asheville, N. C., during the 10th annual convention of Optimist International. The purpose was to show some of the "best" work done by the various Optimist Clubs to the delegates at the convention.

At first, the oratorical contest was centered around the program of the Junior Optimist Clubs and their ideals. Only Junior Optimist members were allowed to enter the contest. The first winner was a lad from Milwaukee, Miss. Carlo Purpur.

Each boy who competes in the International Convention Oratorical Contest as a district representative has a chance of winning one of three college scholarship prizes.

The first place winner will receive a \$1,000 college scholarship, the second winner a \$750 college scholarship, and the third place winner a \$500 college scholarship.

Each boy representing his district in the International Convention Oratorical Contest will receive an engraved gold wrist watch commemorating the occasion.

This year the subject of the speeches will be "Optimism—The Faith That Leads to Achievement."

The plans also cover a \$6 by 30 ft. Sunday School building, now designed as a one-story structure but capable of carrying another floor if needed later.

Perguson said the chapel will be built in such a manner that transepts may be added later to increase the seating capacity and give the structure a cruciform shape.

The plans have been cleared through the building committee, composed of W. Edmund Kyle, senior warden, George W. Bush and H. Madison Macon, after being in the making for more than a year.

Some of the material from the old church, which was located on Route 165 in an area now owned by the Navy, has been salvaged for use in the new edifice. For example, the stairway to the old balcony will be used in the new structure, along with water table brick, sections of the old cornice, which are a good example of the durability of 300-year-old heart pine, and other structural items.

## NEW MOOSE OFFICERS

John E. Fitzgerald (far right) was recently installed as the new governor of Virginia Beach Moose Lodge 1683. Participating in the ceremonies were, left to right, outgoing Governor M. F. Garrison, J. D. Fritzsche, installing officer, and L. S. Phillips.

## Stanley Proposes More Aid to Agricultural Research in State

A pledge to advocate increased appropriations for carrying on agricultural research and education through the Experimental Stations was made in Richmond by Thomas B. Stanley, Democratic Candidate for Governor of Virginia, as he explained a part of his program to advance the Virginia economy through agriculture.

Stanley, who is engaged in beef and dairy farming in Henry County, lives on the same farm on which he was born. He was a founder and is a past president of the Virginia Hereford Breeders' Association and has maintained a high interest in agriculture during much of his life.

"Much of the progress in agriculture in Virginia is due primarily to the work carried on at the Experimental Stations," Stanley said in applauding the accomplishments of those Stations.

"I realize that the knowledge gained through experiments conducted at these stations results in increased production and income for farmers, better and cheaper food for the consumer, improved soil for future generations and increased income and larger tax resources to the State."

"I am advised that the savings realized through any number of single discoveries at these Experimental Stations have been sufficient to pay the entire cost of all experiments."

"Brucellosis and mastitis still plague the stockmen and add up to millions of dollars to the cost of dairy and other livestock products. Lack of 'know-how' in the control of numerous other animal and plant diseases are serious hazards in the business of farming."

"Fast progress can be realized through research directed at finding the answers to these problems along with increased 'know-how' in fertilization, animal nutrition."

All members of the Red Cross are invited to attend.

## Plans for New Eastern Shore Chapel Are Disclosed; Larger Than Predecessor

The new chapel will be erected on a 20-acre site off Larkin Road east of the intersection of the road with the Virginia Beach Boulevard.

A settlement of \$145,000 has been made by the government for the church and property holdings taken over by the Navy, but this total includes the estimated cost of moving the cemetery to the new location.

Since the old chapel was razed the congregation, estimated to embrace about 120 members of the Episcopal belief, has been holding services in the Chapel of the Sea at the Oceana Air Base. The old chapel was the second building to be erected on what is now part of the Oceana jet base. An older frame structure was erected in 1724, but the Eastern Shore congregation can trace its history back as far as 1688.

## Bids Asked on Consolidated High School

Plans and specification for the new Princess Anne County high school was mailed out Tuesday. The school will be opened on June 10. It was announced by Frank W. Cox, division superintendent of County schools.

The bid opening will be held in the County School Board office at Princess Anne at 2 p. m. on June 10.

Five or six large contractors are interested in the project, according to Herbert L. Smith, III, who with Louis A. Oliver, are the architects for the building.

Plans and specifications may be obtained from the architects' office, 409 Yarmouth Street, Norfolk. Notices are also being posted in both the Norfolk and Richmond Builders and Contractors Exchanges, Cox said.

The school, which will have 70 teaching stations and accommodations for 1,600 students, is to be constructed on a 20-acre tract of land on the Virginia Beach Boulevard at Thalia Creek.

The site has already been secured by the County School Board and some preliminary clearing and road cutting has been accomplished.

Under the present plan the school is expected to be completed in time for the term beginning in September, 1954.

At that time all high school pupils in the county will attend the central school facilities. Several existing high schools, in Kempville, Oceana and Creeds, will be converted to elementary use.

The county for the past several years has experienced a severe shortage of school facilities. Several additions have been made to existing plants and temporary facilities have been pressed into service.

## Armed Forces Day Program

Formations of Navy and Air Force planes will silhouette the morning sky and the roar of jets and propeller-driven craft will crack the air on Armed Forces Day, Saturday, May 16, in an air-borne salute to the Norfolk area.

The "fly-overs" are scheduled from 9:45 a. m. to 2 p. m. with a flight of planes approximately every 20 minutes. Some of the formations will fly over downtown Norfolk during the Armed Forces Day parade from 10 to 11 a. m.

Ten different types of aircraft will participate in the mass air demonstration—from sleek jet-driven F-9F Panther fighters to propeller-driven B-26 bombers. Sixty-eight Navy planes and 44 Air Force aircraft are scheduled to appear over the city in the four-hour-long performance.

The fourth Armed Forces Day celebration since the services were unified in 1949, this year's observance in Norfolk is expected to be the largest yet. All Tide-water residents are invited to view the displays and activities at the all-service Open House at Hampton Roads Port of Embarkation on Saturday, May 16.

Participants will be formations of equipment used by the armed forces in battle, visits to ships and exhibits, floats, movies, and band music.

Assistant Secretary of the Navy for Air John F. Fieberly will keynote the program. (Continued on Page Three)

## Social Security Accuracy Needed

"One very important service the business man can perform for his employees is the correct and complete social security reporting of wages which he pays to his employees," J. A. Morrison, manager of the Norfolk Social Security office said today.

To be correct and complete, the employer's report should show: (1)

the worker's full name, (2) his social security number, and (3) the amount of wages paid to the worker during the quarter for which the report is submitted.

On the basis of these quarterly wage reports, the Social Security Administration compiles permanent records. These records determine whether a worker has sufficient work in jobs covered by the Social Security Law to be eligible for monthly payments when he is 65 years old, or whether his survivors will be eligible for benefits if the worker dies.

## BALANCING THE BUDGET

Virginia's venerable United States Senator, Harry Flood Byrd, in a speech on the floor of the Senate on April 27, repeated his oft-stated disagreement with those who believe that it is impossible to balance the federal budget. Senator Byrd feels that it can be done if there is a will to do it.

Senator Byrd has always been economy minded and is a leader of a small group of congressmen who would run the country on a more business-like basis. His constant hammering away at achieving a balanced budget and placing the country on a firm fiscal footing has been one of the bright spots on the national political scene for the past decade.

The highly respected lawmaker admitted in his most recent speech that the present administration last January inherited a Truman budget for the fiscal year 1954 calling for \$78.6 billion in expenditures, providing for only \$68.7 billion in revenue, and piling \$9.9 billion of deficit spending on top of a Federal debt which is now nearly \$265 billion.

Senator Byrd also pointed out that it was most difficult to trim the Truman budget since many of the items covered commitments made earlier and out of appropriations made by the previous administration. But, nonetheless, the Senator said that there were more than 800 items that could be reduced, representing a reduction of \$6.8 billion — this without reduction in either major military procurement or armed forces strength.

In emphasizing the path we are following, Senator Byrd pointed out that the Federal budget has been balanced only three times in the last 25 years. He further pointed out that a whole generation of Americans has come of age under a deficit-financed government.

It would be well if there were more Senator Byrds in Congress, although Mr. Truman, while president, thought, and expressed himself contrarily. The Senator has been a watch-dog over federal spending for many years, carrying to the national level the same sound financial ideas he developed in his native State of Virginia. We need more Harry Byrds throughout the world.

## LONG TIME ENEMY

The unknown has, and presumably ever will, promote fear in the human heart. On the other hand, the unknown, in the sense of ignorance, can beget a sense of ease that is entirely unfounded.

Such is the case with cancer.

From the Virginia Health Bulletin we learn that far from being unknown until recently, "around 2000 to 1500 B. C. the early Indian writing, the Rameyana, and the Egyptian hieroglyphic, the Papyrus Ebers, discussed cancer. Hippocrates, who was born about 460 B. C., described cancer of the skin, breast, stomach and rectum."

Today, the article continues, cancer ranks second among leading causes of death, and, despite the long record of its recognition, the causes are still unknown. Galen, the celebrated physician who lived around 130 to 300 A. D., claimed that the accumulation of black bile in the affected parts of the body was the cause of cancer. And his theory was accepted for more than 1,000 years.

Today we know better than that — but we still are far from having all the answer.

Research, research, and ever more research, will one day give us the answer. Your contributions to the cause of the fight against cancer may lessen the ravages of this malignancy which now strikes one out of every five.

## 'Call Me Madam' At Drive-in Soon

Ivory Berlin's musical comedy hit, "Call Me Madam," which has been a two-year run on Broadway, has been transferred to the screen in all its brilliance and will be the next attraction at the Virginia Beach Drive-In Theatre Sunday and Monday, May 17 and 18.

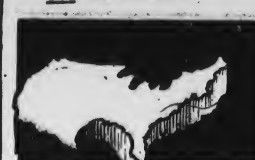

The story format of the stage play remains intact in the film version. It has been embellished with special dance numbers and eye-filling ensembles devised by Robert Alton, noted Broadway choreographer, all photographed in color by Technicolor. Only one change was made in the Berlin show-stopping tunes from the original, the "I Like Ike" song being replaced by Berlin's timeless "International Rag." The ten other numbers sung in the picture include "Kiss Me, Kiss Me, Kiss Me," "Something To Watch Out For," "It's A Lovely Day Today," "Can You Use Any Money Today?" "Marrying For Love," "Best Thing For Me Would Be You," "You're Just In Love," "The Ostrich," "What Chance Have I With Love?"

18. Ethel Merman will be seen as the fabulous Mrs. Sally Adams, American Ambassador to the Grand Duchy of Liechtenburg, the role she created on the stage, and appearing with her co-starring roles will be Donald O'Connor as her personal press attache, Verellen as the glamorous Princess Maria and George Sanders, the idealistic Secretary of State of the Duchy.

## Many Regular Donors Await Next Visit of Bloodmobile Here

Although a month still remains before the next Civitan club sponsored visit of the American Red Cross Bloodmobile to Virginia Beach, June 19, Postmaster M. S. Myers has posted the date on the Post Office bulletin board. It is not necessary, though, to remind three members of the Post Office staff of Bloodmobile visits for two of them are members of the ever growing "Gallon-Club" while the third lacks but pints for his gallon pin. A regular donor is J. N. Bailey of Oceana, who has been with the Postoffice for 17 years. Bailey already has given six pints.

The only bloodbank visitor Mrs. John Taplick, gallon-donor, has visited, according to available records was the one in January when she was in Florida on her honeymoon. The former Sarah Washburn, Mrs. Taplick resides at 516-20th Street and is a charter member of the Business and Professional Women's club. Her fa-

ther opened the first post office at Cape Henry in 1902 and retired in 1939. Mrs. Taplick's husband is Sergeant, First Class Taplick, stationed at Port Rustie.

Another regular donor and member of the "Gallon-Club" is Roy R. Jackson, 413-23rd Street, who is serving his ninth year with the Post Office. A native of Washington, D. C., he is married and has a daughter, Mrs. William Robert Henry, and two grandchildren, Leah and Bill. Jackson points out that he was too young for World War I and too old for World War II so he gives blood for those in the Armed Forces.

A group of Virginia Beach Catholic women have just been presented their Standard and Advanced First Aid Certificates by Mrs. Frank Avett, chairman of first aid for Princess Anne County, American Red Cross. ## Beach High School Students to Finance Building Athletic Field

Virginia Beach High School students are determined to have a football stadium and a lighted gridiron for their home games. Their determination was visibly demonstrated the past week when the student body voted that each student would contribute \$10 a piece toward the project.

Edward Mott, president of the student body, started the ball rolling when he made a motion calling for \$10 from each student. The 300 students in assembly at the time agreed unanimously.

U. T. Brown, a junior, had the distinction of being the first student to contribute \$10 and thereupon became the first member of the Student Body's Booster Club and so gained eligibility to attend the

eight home games this year. The high school has a third year of the school, but lights and stands are needed. Estimated cost of the installation, said Principal James A. Johnson, is \$12,000, with another \$2,000 needed for athletic equipment.

Johnson advised the students of the need at the assembly and accepted a \$500 check from Mr. Fred Perkins, president of the Women's Club, part of which is to go to the stadium fund. Another \$100 already had been appropriated by the city's Rotary Club.

Then, agreeing to raise the money by working during the summer, the students took matters into their own hands.

### KEMPSTON BOYS' FOOTBALL TEAM

The Ferguson Dismantlers dropped a 5-5 decision in a state football game at Petersburg before a large crowd Sunday, May 1, 1936.

The game was played on a very muddy field and was delayed in part to enable the spectators to see as much water as possible off the playing field.

Earl Bennett, Billy Wimer, and Pete Miller banded out two hits apiece to receive the hitting honors of the Kempston Blue Devils for the day.

### 4-Hers OBSERVE RURAL LIFE SUNDAY

The Senior 4-H Club members of Kempston High School again observed Rural Life Sunday at Old Donation Episcopal Church

Lynchaven Farm this Sunday, May 10 at 11 a. m.

4-H Club Sunday is observed by church organizations throughout the nation to emphasize the meaning of Christianity in Rural Life. It occurs the fifth Sunday after Easter and is closely linked with Rogation Days celebrated for centuries in the Christian Church during the three days preceding Ascension Day. Sunday is in the springtime or the seedtime of the year and Christian men and women ask God's blessing upon the soil and the seeds, that He may supply warmth and moisture that the seeds may yield a fruitful harvest.

Rogation Days were first observed by Saint Marcellus, Bishop of Vienne, in Gaul, sometime prior to A. D. 475. In A. D. 511 they were ordered observed throughout France and in A. D. 847 were established in England by church action. After the Reformation, these days were almost entirely forgotten in this country. They were revived in 1893 at the suggestion of the International Association of Agricultural Missions, and soon adopted by the Home Missions Council of North America, by the Federal

## Farmers Asked To File Reports

R. W. Lane, chairman P. A. County Committee, appealed again this week to Princess Anne farmers to come to the PMA office at Princess Anne to file a wheat acreage report.

He explained that the reports are needed as part of a state-wide survey to determine how much wheat was grown on each farm during the past three years. Farmers are asked to report wheat acreage, whether seeded for grain, given manure, cover crop, or for hay or silage. Mr. Lane said he also wants a statement from farmers who grew no wheat, or who had a wheat failure during the past three years.

The wheat information will be used by PMA in establishing 1954 wheat acreage allotments. In view of the large carryover stock and expected 1953 production, the total supply on July 1, the beginning of the 1953-54 marketing year will very likely be substantially larger than estimated domestic and export demand. This situation is apt to make it necessary for the Secretary of Agriculture to establish some form of production controls. Secretary Benson has already said that controls on the 1954 wheat crop are probable.

Assessing this wheat data in our County and in the State is a tremendous job," Mr. Lane said. "Farmers who will come to the PMA office on or before May 16 to report wheat acreage on the farms which they operate during the past three years will assist us greatly in completing our part of the survey."

## Highway Department Steadily Engaged In Maintenance of Virginia Road System

In its efforts to promote greater highway safety, the State Highway Department maintains a continuing program to locate and correct slick spots on primary and secondary roads.

A skid test consists of taking precision measurements of the skidding distance of a car when brakes are applied while it is traveling at 10, 20, 30 and 40 miles per hour on a section of slick surfaces. In doubtful cases, road which has been sprinkled to

approximate critical rainy conditions. If the distance of the skid exceeds the standard set by the American Association of State Highway Officials, the road is considered dangerous and is treated.

Highway engineers say there are two causes for slick pavements—risers of asphalt to the surface of the road during periods of excessive heat and moisture, and "polishing" of the road surface in spots by heavy traffic.

One corrective measure in either case is to use a light application of asphalt and add sharp-edged aggregates, such as crushed stone or gravel.

Another corrective measure, used only when asphalt rises to the surface, is to apply heat to the surface and then roll in

## Sawdust Makes Garden Mulch

Home gardeners can use sawdust to good advantage as mulch on their vegetable plots.

Dr. W. Wesley P. Jenkins, head of the horticultural department at VPI, says sawdust mulch is the best substitute for irrigation the home gardener can find. What's more, it can be had for practically nothing since thousands of tons are thrown away

each year.

In addition to conserving water in the soil during a dry season, a sawdust mulch keeps land cool and moist during hot weather, thereby increasing garden productivity.

Jenkins said that contrary to a popular belief, sawdust will not injure the soil. He said the wood bits will not turn the soil acid, or at least not enough to worry about.

Also, he said, no sawdust except that from walnut wood will have a toxic effect on the soil. However, if the sawdust is turned into the earth,

the soil might develop a nitrogen deficiency.

Lack of nitrogen is easily corrected, however, by a simple side-dressing with fertilizer. As long as the sawdust remains on the surface of the earth and is not turned under, there is little likelihood that nitrogen deficiency will develop.

The mulch should be applied so it covers the ground to a depth of about one-half an inch if it is placed on the garden where the coarse-seeded plants are seeded. Over the part of the garden where fine-seeded vege-

tables such as carrots, lettuce, and beet are planted, the depth of the sawdust should measure about one-fourth inch.

If the sawdust is not applied until after the seeds come up, apply it to a depth of an inch.

Four cubic feet of sawdust will be enough to cover a plot 40 feet long and 30 feet wide.

The James J. Dixieland Jazz was burned at New Orleans funerals, says the National Geographic society.

## Gala May Festival, 'Over the Rainbow,' Planned by Oceana School for May 22nd

The lights of the Oceana Cavalier stadium will turn on again for another of Oceana's colorful pageants on May 22 at 8 o'clock when they will present "Over the Rainbow," a legend of the ages under the direction of Miss Joanne Sterling.

Many quiet little people live under the trees together—Robin Hood and his merry men, an Indian tribe, the fairies, gnomes, and little dreamers. All of these groups are part of the legend to be given. The beautiful princess cannot marry her prince until she finds a rainbow.

The high school girls will present a creative dance of storm and rain, a soft ballet under the direction of Joann Russell, and last, but not least, a waltz presented by the 8th grade tumbling team. Climaxing the program will be the presentation of the Junior and Senior Court of Princesses.

The following girls will render a dance, "Over the Rainbow," as the Senior princesses:

Dianne Taylor, Barbara Kernan, Charlotte Scarborough, Beverly Thorsen, Peggy MacCubbin, Janet Fenwick, Peggy Bishop, and Joann Russell.

Marion Dudley will reign as Queen; Grace Vahos as Maid-of-Honor, and Patsy Hitchings will honor the elementary school as Junior Queen.

Junior Princesses, acting as fairy god-mothers, are:

Seventh: Norma Daggett, Patsy Johnson, Dianne Gallup, Sandra Ives, Ann Stroud, Connie Howe and Bertha Wye.

Sixth: Mildred Rodgers, Joan Baker, Evelyn Jenkins.

Fifth: Molly Butler, Jeannette Page, Kaye Smith.

Fourth: Patsy Ayers, Brenda Yon.

The script was written by Carolyn Meachum and will be narrated by Miss Meachum and J. D. Harley.

Set aside the evening of the 22nd for your entertainment, the group in charge advise. The students have worked hard for your pleasure. "Over the Rainbow" is the theme, and May 22, at 8 p. m. is the date.

## RED CROSS MEET SET FOR TUESDAY

## Criminal Charges Not Pressed in Show Club Case

Criminal charges against members and all but one employee of the Show of the Month Club were not pressed Monday in Princess Anne Trial Justice Court.

They were charged (in the case of members) with frequenting a nuisance and (employees) with aiding in the maintenance of a nuisance.

Larry Kent, manager and a member of the board of governors, was acquitted after a trial in charges of permitting whiskey in an establishment holding a restaurant license and of operating a restaurant as a common nuisance.

The club, housed in a building on Little Creek Road formerly known at Chateau Martini, was raided March 17 on its opening night, and all patrons and employees were arrested. Some 100 members posted bonds in the lobby of the club.

Attorneys Samuel A. Steingold and W. R. Ashburn defended the club's manager at the trial before Trial Justice J. David Reed. The matter was handled as a legal question, the facts not being in dispute.

The judge who won for them was a law in the ABC code which refers to restaurants as being restaurants as defined in Section 58-320 of the State code. That section of the code was repealed in 1950 and no new definition has been substituted.

The defense lawyers took the position that a restaurant is a business establishment that sells meals to the general public, whereas the club restricts its food vending to members only.

## POST OFFICE IS COMMENDED BY MAYOR MURRAY

Mayor P. F. Murray this week commended the employees of the Virginia Beach post office for their fine cooperation in the city's cleanup, fire drive that has been underway this spring.

"The post office building is a real asset to the community, and its staff has shown a great sense of civic pride," the Mayor wrote Myers. "I wish to commend the post office personnel for their fine support of our beautification program," the Mayor concluded.

No tax rate was set at Monday's meetings and will not be set until final approval is given the fiscal year starting July 1. The budget represents an increase of \$12,000 over the previous year's budget figure.

In a special meeting of council held on May 6 it was decided to delay for three months the sale of \$300,000 in bonds for extension of the sewerage system of South Virginia Beach because of unfavorable conditions in the bond market.

The headquarters office for Virginia Beach and Princess Anne County is located on Seventeenth street (the former location of Colonial Stores). The office will be open daily from now until the Democratic primary on July 14.

The headquarters will operate to further the candidacy of the Honorable Thomas B. Stanley, of Bassett, Virginia, for Governor of Virginia, and the candidacy of the Honorable Harry B. Davis for the House of Delegates from Princess Anne County.

A general committee headed by P. B. White, prominent attorney, has been formed to work for the election of the two veteran legislators. Other members of the committee include Dr. M. Bagley Walker, John B. Dey, Edridge Whitehurst, P. F. Murray, Mrs. Wallace T. Clark, Dr. L. L. Hancock, Rhea Walker, Mrs. John J. Collins, S. Paul Brown, Mrs. W. W. Connell, Jr., and W. R. Parsons.

Stanley is opposing State Senator Charles R. Fenwick for the State's highest office, and Davis is being opposed by John E. Lippincott, a young resident of Princess Anne County. Stanley is a former congressman from the fifth district, having resigned that post to make the run for Governor.

## Farm-to-Market Road Betterment Urged by Stanley

Thomas B. Stanley, Democratic candidate for Governor in the primary on July 14, is strongly in favor of using more public highway funds to surface-travel farm-to-market roads throughout the state.

Stanley promised that, if elected, he would advocate the use of secondary roads, so that farmers and other rural dwellers may have easier access to churches, schools and markets.

"I am a firm advocate of the sound, pay-as-you-go plan under which the state would build up highways have been constructed," Stanley said, "and I believe continuation of that policy, I am opposed to any diversion of highway funds."

The Virginia Advisory Legislative Council and highway authorities are now engaged in making an extensive survey of the needs of Virginia highways. All Virginians vitally interested in improving our highways are being urged forward to the great task of that study. I pledge to the people of Virginia that the recommendations in that report will have my most thoughtful consideration.

Stanley said that he is "deeply concerned with the great number of deaths and injuries from accidents along our highways, as well as the immense amount of property damage resulting therefrom. I want you to know that, if elected, I will work closely with the Governor's Highway Safety Committee and other interested groups in a determined effort to make a substantial improvement in the State's highway safety record."

## Art Association to Hold Spring Show

A number of paintings will be for sale by some of our finest local artists, as well as work of craftsmen.

The local Art Association is now a member of the Virginia Museum of Fine Arts. Mrs. Thomas B. Kennedy, chairman, has received a letter expressing the interest of the state in the association. As a member of the Association, the Virginia Art group will be entitled to state services.

## "PLAYTOWN, U. S. A."

"Playtown, U.S.A.," the colorful 30-minute movie on Virginia Beach that is currently being shown on the nation's television screens and before civic clubs, both locally and nationally, is one of the finest promotional stunts Virginia Beach has ever enjoyed. Its reality is one of the finest accomplishments of the Virginia Beach Chamber of Commerce and the City's Advertising Committee.

Financing the cost of such a film was made possible through the special taxes the City levied two years ago and the generous aid of the Virginia State Department of Conservation and Development. The State agency bore 25 per cent of the cost.

The film is a fast moving vehicle, highly entertaining, but most of all tells the complete Virginia Beach story from start to finish. It includes the first annual Sand Festival held last summer and touches every aspect of vacation life at Virginia Beach.

The Chamber of Commerce reports that it has twenty-six rolls of the movie and since its completion every film has been in use in some part of the nation. Many sets have been distributed to television stations throughout the East and Mid-west. During the first month it is estimated that more than one million persons viewed the film. It is being shown at colleges and high schools throughout the State.

The movie fills still another place in the promotion of Virginia Beach, the resort, and the City and the Chamber of Commerce, in particular, are to be congratulated in the development and distribution of such a publicity promotion.

## VOICE IN THE WILDERNESS

At a time when it appears most people are "jumping on the Thomas Stanley bandwagon," his chief opponent, Senator Charles Fenwick, has turned to personal attacks of the distinguished former congressman.

In a speech beamed at the Covington area by radio and television Friday night, Mr. Fenwick charged that Mr. Stanley has "an amazing record of inaction, stagnation, drift and idleness in the public welfare."

Then he proclaimed that the issue of the gubernatorial race is "leadership versus drift."

Mr. Fenwick's statements impress us as being those of a candidate who himself realizes the tide is turning to his opponent.

Such a person more often than not resorts to "mud-slinging" and name-calling, dodging entirely, the issues involved. For example, in what was Mr. Stanley inactive? And where can it be found in his public record that he has been disinterested in the public welfare?

Anyone can be accused of being inactive and stagnant in projects in which they take no part. And obviously since Fenwick has not taken a positive stand in every issue of public interest, he too might be regarded as being inactive, stagnant, and disinterested in the public welfare, by his own yardstick.

Mr. Fenwick, obviously, is dealing in generalities, for he fails to cite specific instances of stagnation, inaction and disinterest in the public welfare on the part of Mr. Stanley.

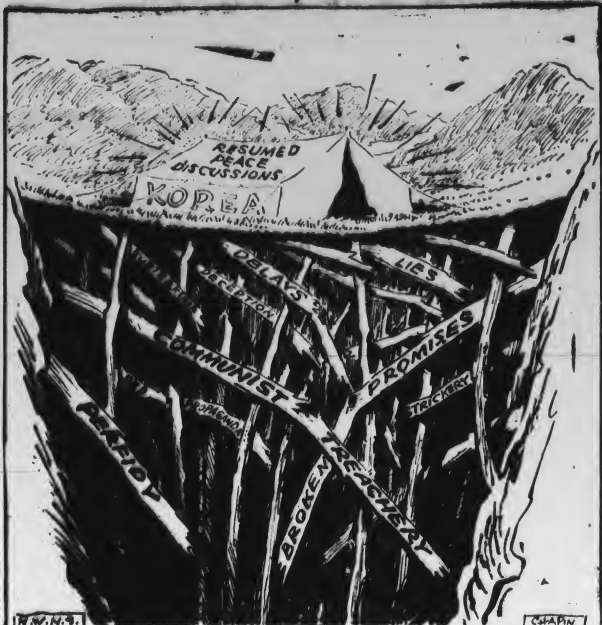

We do not think the people of Virginia are interested in what Mr. Fenwick thinks of the record of Mr. Stanley. Instead, we think the people of Virginia are more interested in hearing from Mr. Fenwick about his own record and what he expects to do if he is elected governor.

After all, the two candidates will stand on their past records, as Mr. Fenwick suggests. The people will be the judge of those records with little concern over how the one candidate interprets the record of the other.

We cannot help but surmise that Mr. Fenwick's approach at this late date is like the "voice crying in the wilderness," if he expects to be elected governor by defaming the record of a man whose every move in the public's service has reflected an inborn desire to contribute to the growth and prosperity of the Commonwealth of Virginia.

## IT'S AN OLD, OLD BRIDGE

## Subscription

(Continued from Page One)

entitled the candidate in the campaign to a "club coupon." The "club coupon" is worth 132,000 extra votes. These votes are in addition to the regular votes allowed in each subscription. Every subscription sold helps to accumulate the \$15 worth. Two "club coupons" will earn 264,000 extra votes, etc.

In other words, 132,000 EXTRA votes will be credited to as many \$15 clubs as the contestant can sell.

There is no limit placed on how many \$15 clubs a candidate may get. All have been advised of the vast difference in vote credits upon subscriptions turned in later.

Votes are all one needs to win the new 1953 Chevrolet and there is only one way to get them: now is the time when subscriptions earn thousands of bonus or extra votes. Each and every award in the list is worth many times the effort necessary to win it, and while they are not going to be won without effort, one's ability to hustle and secure results will determine just how large a slice consisting of John Long, Melvin Spivey, and Earl Bennett. Strange as it may seem, these boys all carry a big stick at the plate and double in the outfield when not on the mound.

Behind the plate is Spud Jackson, a better than able catcher. The infield is rounded out with Bob Kirschoff, with two homers to his credit, at first base; Pete Miller, a sharp hitting second baseman; Linda Box, a fine fielding shortstop; and Billy Wimer, one of the smartest and most "heads up" ball players to don the Kempsville blue and gray in a long time.

The outfield consists of such standard performers as Vernon Gardner, Joe DeLuillo, Jerry McMath and Pete Green, all very able high school ball players. The team holds a 6-1 record in the Group II district, their only loss coming on an 8-7 thriller in the first game of the season when they played Suffolk.

The team journey to Franklin, with whom they are tied for first place, on Friday night. This one will probably make the difference in the winning of the district title. The only other team in the local nine's schedule is Great Bridge, the home of Landis Neal, a fine southpaw hurler. Great Bridge has two losses.

## SUPERIOR RATING GIVEN CREATIVE WRITING OF KEMPSVILLE STUDENTS

Kempsville High School again took a "superior" rating in the recent Group II Creative Writing contest, sponsored by the Virginia High School League.

Two Kempsville seniors, Misses Anna Rea and Shirley Humphries, received "distinguished" ratings for their works respectively. "The Last Performance," a short story, and "Sunshine and Suspense," an essay.

Other entries and ratings were as follows: "Bet I Ever So Humble," essay, by Jo Anne Thompson, "superior"; "Triumph of Santa's Sleigh Boys," short story, by Carol Strachan, "superior"; "What Is Life," poem, by Bill Johns, "superior"; and "The Child," poem, by Patsy Price, "creditable."

## Dance Masters Engaged to Teach At Cavalier Hotel

President Sidney Banks of the Cavalier announces that Dance Masters MacCarthy and Young, recently of the Vinyo Park Hotel, Florida, have been engaged for the spring and summer seasons as resident dancers and teachers at the Cavalier.

A John Powers model beauty, Miss Joan MacCarthy studied ballet with Tarasoff and Rosi and dancing modern dancing with Thomas Reilly of the American Academy of Theatre Arts in Carnegie Hall. She has been featured on Broadway dancing at the Vanderbilt Theatre in "Zandamar" and "The Glass House," her motion pictures, including "Winter Cruise" and "House of Dreams" for Twentieth Century and RKO. She took the teachers training course at the Madison Avenue Studio and was retained as an Arthur Murray teacher for some time, subsequent to which she paired with George Young, also of Arthur Murray, to teach numerous large modern social dance classes and private pupils at the New York Lo Quorne House of the Dance.

Together, they have had eight seasons' experience in fashionable resort hotel work, including those at the New York Hotel Adler, the Hotels Brunswick and Waldorf of Lakewood, the Montauk Manor of Long Island, the Hotel Antlers and the Brown Swan Club Hotel of the Adirondacks, where they successfully carried a full schedule of smart, modern instruction in all the popular American and Latin-American social dances, organizing such amusing diversions as Tango Tea, Waltz Way, Sambo Session, Polka Party, Fox Trot Frenzy, Mambo Madness, New York Night, Rumba Rendezvous, etc.

During their incumbency at the Cavalier of Sea Island, they offered weekly "Champagne Hours," and gave the royal performance before Her Majesty Queen Juliana and her consort, Prince Bernhard, of the Netherlands, with their entourage of the Princess and Princesses of the royal house of Aussen-Lippe, at that time all guests of the United States.

Noted for their versatility, the repertoire of this noteworthy couple includes folk and period dances as well as Cuban and Puerto Rican rumba, Brazilian samba (carnival and drawing room), Maxixe, New Yorker, Tango, (Valentino and Le Quorne), Mambo, La Raspa, Mexican Paso Doble and Chapinesas, Schotishe, English and Viennese Waltz, Charles Fox Trot, Foxta, Cake Walk, Conga, Charleston, etc., a program of unusual interest and variety. The cool and charming Panorama Room at the Cavalier Beach Club will be the scene for private lessons and for open house for beginners and advanced of all

of the prize nation he or she will receive.

To come out victorious in this race is the aim of every "live wire" and from the ardor of the friends of the contestants are showing, it appears that there is intense rivalry on every hand. Each candidate has his or her friends who are boosting their favorite. TIME, TIDE, and VOTES WAIT FOR NO MAN. WORK NOW.

## Local Artist Has Work on Display

Reminiscent of the side walk auctions held in New York City, an auction of oil paintings was held on the Longwood College campus, in front of West Wing from 3:30 p. m. to 4:30 p. m. on Wednesday, May 13.

The auction followed the annual spring art exhibit displayed in the library and in the art department from May 6 to 15.

Mr. Norman O. Myers of the business department took charge as the auctioneer, assisted in his duties by Dr. George W. Jeffers, head of the biology department.

"The idea of an auction originated from an interest non-art students have shown in buying various paintings," said Mrs. Janice Lemen, associate art professor. She also said that the auction enabled pictures to be sold at a reasonable price to the "highest bidder."

Oil paintings to be included in the sale were works by Mrs. Margaret Sutphin, Roanoke; Misses Lou Jamison, Forest; Florence Blake, Virginia Beach; Molly Hersman, Richmond; and Ann Weidenberg, Sandston.

Also, Mrs. Neil Green, Suffolk; Misses Jean Hobbs, Roanoke; Patty Poffenberger, Hampton; Mary Bennett, Rocky Mount; and Mrs. Billie Hubbard, Farmville will sell paintings. Bidding from the realistic to fantastic in theme, the works include abstractions, landscapes, and portraits.

The exhibits included pottery, leather work, block prints, water colors, a display from the elementary methods class, textiles, glass etching, wood carving, and metal work.

The Happy Hours School, Oceana, Virginia, will hold its annual May Festival on Wednesday, May 27th at ten thirty.

and Mrs. I. W. Hardy. The Princess Anne County Chapter has sponsored a contest on "High Lights of American Music." Mrs. Hardy will make the award to the winner at the graduation exercises at Kempsville High School.

The incoming Regent, Mrs. Tynes, presented Mrs. Herbert with an Ex-Regent's pin in recognition of her services as Regent.

## Local Insurance Men Organize; Affiliate With National Assn.

At the invitation of the Virginia Association of Insurance Agents, representatives of the local stock insurance agencies met at Albano's Restaurant last Tuesday evening in a dinner meeting for the purpose of organizing a local board, which will be affiliated with the Virginia and National Association. Mr. William N. Day, Executive Secretary of the Virginia Association of Insurance Agents acted as temporary chairman of the meeting.

Mr. Day called the meeting to order and explained the purposes and the relation of the local board to the state and national associations. He also mentioned some of the accomplishments of the National Association of Insurance Agents, such as the U. S. Supreme Court ruling giving all stock agents the right to legal ownership of expirations and the ruling by the same body making such agents "Independent Contractors."

Mr. Thom W. Henderson of Norfolk and president of the Virginia State Association of Insurance agents, was present and spoke at length on the advantages of a local board. He reminded those present of the coming state convention, which is to be held at Roanoke June 22, 23, and 24 and expressed the desire that the Virginia Beach group have a representative at this meeting.

The group present voted to form a local association and passed a suggested Constitution proposed by Mr. Day. A nominating committee consisting of E. A. Langhorne, J. Burks Withers, Jr. and Harold Kellam named by the temporary Chairman, brought in the following slate of officers: W. W. Johnson, president; E. A. Langhorne, vice-president and H. G. Moore, secretary-treasurer. This slate so named, without further nominations from the floor, were duly elected by those present. The new organization

## Oscar Winning Performance to be Seen at Drive-In

One of the very good reasons for America to be proud of its motion picture industry, according to the critics, is personified in Hal Wallis' production of "Come Back, Little Sheba," a film ver-

sion of the smash Broadway hit, released by Paramount, which will be seen at the Virginia Beach Drive-In Theatre on Sunday and Monday.

Here is a compelling and emotion-stirring film that took much courage on the part of its producers to make. Based on the Theatre Guild's sensational stage hit of a few seasons ago, "Come Back, Little Sheba," stars Shirley Booth making her Oscar-winning film debut, and Burt Lancaster in a role entirely different from his usual blustering, acrobatic hero parts.

On the screen the story retains all of the visual excitement, the brilliant and searing observations on human nature, and the tense climaxes which made it such a memorable experience on the legitimate stage.

### RAPID DIGESTIBILITY

Ninety-eight per cent of milk is assimilated by the human body it has been shown by scientific tests. Digestive action is quicker on milk than on meat, eggs or fish.

## June Livestock Survey Questionnaires Soon to be Distributed to County Farmers

Around June 1, about one out of every twelve farmers in Prince Anne County will find a card in his mailbox which has been placed there by his rural mail carrier.

The purpose of this card is to secure information concerning the number of hogs on farms, the size of the spring pig crop, number of cows milked and milk production, the number of ewes on farms and the number of the lambs saved, and some information concerning chickens. About five minutes will be required to fill out this card which can be put back in the mailbox to be collected by the mail carrier.

The Department of Agriculture has been making this survey for more than 25 years and the information given by farmers has enabled the department to make accurate state estimates of the pig and lamb crops and of milk production and poultry numbers. This is a sample survey as only a small percentage of the farmers are asked to fill out a card. It is, therefore, important, according to Henry W. Ozlin, Princess Anne County Agent, that everyone who receives a card fill it out promptly in order that the results may be accurate.

The information from these cards is only used for making county and state estimates. Mr. Ozlin says that the information to be published as a result of this survey will be very helpful to both himself and the farmers in following the trend of livestock numbers in Princess Anne County and in knowing what livestock numbers are doing through the state. He urges that those receiving cards give full cooperation and that they take a few minutes as soon as they get the card and fill it out for their farm.

### HAS MANY USES

In addition to its prime use in paper manufacture, wood pulp is used to make building boards, roofing felts, fibre board shiping containers, rayon, cellophane, artificial leather and rugs.

## Allocations Made By Highway Dept.

The State Highway Department has announced approval of primary highway allocations for fiscal 1953-54. The allocation of \$22,356,460 includes \$22,356,016 for rural and urban highway construction; \$4,473,940 for right of way; \$3,001,287 to the city street fund; \$812,000 for surveys and plans; and \$732,622 for signs and signals, planning, and landscape work.

Only four changes were made in the tentative allocations in which the Commission held public hearings May 12, in Roanoke and May 13, in Richmond. The changes were made within each of three districts affected, since the allocation to each district remains the same.

In the Salem district, an allocation on US 11 in Montgomery County was increased from \$38,000 to \$53,000. The \$14,000 needed to extend the bituminous surfacing was taken from the district's reserve which is provided for additional expenses on projects during the year.

In the Richmond district, an allocation of \$35,000 to Route 161 in the city of Richmond was switched to Route 250 for reconstruction on Broad Street from the old 1914 city limits to Shepard Street. The change was at the request of the city.

In the Fredericksburg district, an allocation of \$100,000 to Route 260 in Northumberland County was split to provide \$50,000 for needed curb, gutter and widening on Route 198 in Mathews County House. An allocation of \$2,000 was taken from the district's reserve fund to provide for resurfacing on Route 3 in the city of Fredericksburg.

The 1953-54 allocations will be available for construction as money is received during the period from July 1, 1953, to June 30, 1954.

Downtown Norfolk will blossom again as the Red Fez of the Robbers of Khedive Temple bedeck the streets. Always an occasion for merriment, big smiles and heavy handshakes, the Shrine carnival offers you an opportunity to share the fun. See the big street parade, watch the performance of the Arab Patrol as tricky formations are executed. Hear the stirring music of the Band and the Drum and Bugle Corps. Parade time is 4:30 p. m., Saturday, May 23rd. Color and more color is the theme when Shriners parade. The hilarious antics of the Clowns and the Hill Billies, the satirical appearance of the Chanters and the Frowst Guard and the determined glint in the eyes of the Wrecking Crew give these occasions the air of a "Circus Day."

To kick off a week end of fun Shriners and their ladies will dance and make merry "Barb Dance" Fashion" at a pre-carnival dance Friday May 22nd. Candidates for the spring class will be present and will get their first touch of fun "Shrine Style." All in all it looks like a big week end for the Shriners of Khedive Temple.

### IT'S FUN TO COOK

By LUCILE CLARK

Food Editor

See "Let's Cook" every Monday through Friday at 12:45 on WTAR-TV

Hi! Since I last saw you I've been busy. But you have, too! But you've been doing that Spring-cleaning, putting away the winter clothes and gardening... doing all those many things that every house-maker has to do in Spring-time.

You know, I haven't gotten all those jobs done yet. I've been visiting around... chatting away with interesting people... and finding out about something very interesting and something very good to eat.

I want to tell you about my visit to the city market one morning last week...

#### ALASKAN KING CRAB

I've been hearing so much about Alaska King Crab during the past year that I just decided I'd try and get acquainted with this popular fellow who has taken the menus in so many restaurants by storm.

Was I lucky? Harry Sandler of L. M. Sandler and Sons, a very enthusiastic young man, introduced me to Mr. King Crab. I'd say Harry knows his seafood too. You remember the popular song of a few years ago, "Seafood Mama"? Well, Harry, I'm sure, can be called "Seafood Papa." My, but he's a live wire and I thoroughly enjoyed my visit at Sandler's.

Here's what I found out:

You know the King Crab is a tremendous fellow whose legs have a tip-to-tip span approaching six feet and sometimes weigh as much as twenty-five pounds. The average King Crab's length is fifty inches and weight thirteen pounds. Alaska King Crab meat is tender, juicy and delicately flavored, white, streaked with a brilliant red. It has real eye and taste appeal. It is easy to prepare. It stores for months with no loss of flavor. The King Crab is found in the Bering Sea, in the stormy, icy waters north of the Aleutian Islands between the coasts of Alaska and Siberia. They are stormy looking fellows, too. These huge crabs reach maturity from eight to nine years. I am told it is not unusual to catch a barnacle covered King Crab which has crawled great distances along the ocean floor for over thirty years. It swims far below the surface of the sea—120 to 240 feet, they tell me.

When Captain Lowell Wakefield built and equipped the most modern and elaborate combination fishing and processing vessel ever constructed, he staffed it with fearless pioneer American fishermen. That's just the reason you and I can enjoy this elegant seafood today. When a netful of

## Merry Matrons

By ALISBEE

By ALISBEE

Of the happiest, merriest matrons of them all these May days is Queen Elizabeth II and a small part of it, you may be sure, is because she knows she looks just right for the Coronation pageantry which will take place on June second. Returning visitors from London are awe-struck at Elizabeth's peach-blonde beauty and her new tiny waistline look. After the Duke of Edinburgh's spoofing of her, she is looking even better. Her new dress is a simple, elegant, and she is prouder than anything ever getting back her neat waistline which will be greatly accentuated with her bouffant court robes and bows.

Mr. Wiley C. Harrell likes to tell how nice movie star Joseph Cotton's parents were when they visited at the Hotel Essex celebrating their fiftieth wedding anniversary. They'd not had a look at our beach for eighteen summers and they'd honeymooned here long before many of you readers came to live the year round.

Mr. Horace Bluford's joy knows no bounds over the smartness of her seventeen year old daughter, Carol. She's a student at the Norfolk Catholic High School and, this month, is the cheer girl on Birchard's teen-agers television show.

Dickie Mumford's attractive Mom, on Mother's Day, looked like a Paris dandy walking in a smart, short, full-skirted black taffeta frock, patent leather shoes and with a big droopy, popy-ded hat.

Mr. Hope Murden could easily have put a shoe on his sister after that "go" she had with a small board and a piece of spongy on the fishing pier whilst trying to keep her third eye on seepy little thirteen month old Suevie, whose little back is as straight as an arrow and looks like good football material along about 1967!

At the last Cavalier Garden City meeting, an outdoor session in Grace Haycock's pleasant green acre, Mrs. Gilmore Tillbrook could not have been happier when she received the most beautiful silver after-five serving tray we've ever (Continued on Page Four)

King Crabs is scooped up from the ocean floor onto the deck of the "Deep Sea," they are immediately cleaned, cooked and quick-frozen at 25 degrees below zero. They are then packaged in a matter of minutes, all about the ship "Deep Sea." This process makes it possible for you and I to enjoy this delectable seafood. It is rushed to stores by refrigerator ship, freight car and truck. That's the reason when you get King Crab meat it is just as fresh as if you had caught them yourself, and as I said before, it stores for months with no flavor loss.

Only the legs and claws are used when the huge crabs are scooped up to the deck of the ship, cleaned, cooked and quick-frozen, the legs and claws in the shells are packaged in 15-pound boxes. It is packed in one pound and three and a half pound bricks and also in the handy 6-oz. package.

#### HOW TO PREPARE:

Here are a few ways to prepare King Crab.

If you are using the legs, allow them to thaw completely at room temperature, break or cut legs at main joints, using kitchen shears, and cut through shell on smooth side, full length of leg. Put in a shallow pan and into hot oven. When hot, turn over, pile on platter and give everyone a cocktail fork, a generous bowl of hot melted butter, and let them get busy, and... Good! yes indeed, it is wonderful!

King Crab meat for cocktails, main dishes, or hors d'oeuvres provides a deliciously different seafood.

#### KING CRAB AU GRATIN

In double boiler melt 1-2 stick butter. Blend in one tablespoon flour, dash salt, pepper. 1 teaspoon Worcestershire sauce; add a can of cream of celery soup, 1-3 cup top milk. Cook until very hot, add one 6-oz. package of King Crab which has been thoroughly thawed and drained. Blend with hot mixture.

Now fill individual casseroles or ramekins, top with grated sharp cheese and brown lightly. If you haven't eaten Alaskan King Crab, there's a wonderful adventure in store for you. I'm sure you'll like it.

See now. See you next week!

#### BROOK'S TULIP

Christian Dior's tulip silhouette is chic and very popular in the mid-season showings. The width is concentrated at the top, emphasizing the tulip flower, and the narrowness of the skirt depicts the stem. The width begins beneath the breast with the soft curves accentuated by cutting and stiffening. While the shoulder line remains natural, the width is also obtained by draped collars or sleeve treatment. Many of the smart, cool-looking summer lines are fashioned like the tulip theme. Dior continues his use of crisp fabrics, too, especially the shantung, fales, grograins, ottomans, cotton or silk organdies and satin.

#### BALENCIAGA'S BELTED LOOK

By the belts of Balenciaga have

created much fashion stir! In many cases, the bodices and jackets are belted, and the belts lie below this fullness, or down about the hips. Many of these belts are contoured and are about three inches at the widest part, while others are like periums, about eight or ten inches wide. This tends to make the waistline appear lower. Balenciaga's semi-fitted suits have a bit more fitted look and have been extremely popular in the last two months with chic women of fashion on the Continent and in the United States as well. The jackets in some cases are shorter as are the sleeves. The sleeves sometimes have the new belted look and come just below the elbow.

The Rev. A. W. Liathum performed the ceremony.

The church was decorated with palms, ferns and cut flowers. Mrs. H. W. Newsome played the wedding music and was accompanied by Mrs. P. L. Early, who sang traditional wedding songs.

Given in marriage by her father, the bride wore a gown of white lace and net, made with fitted lace bodice and long fitted lace sleeves. The full skirt formed a sweeping train. Her fingertip veil was arranged from a lace half hat, outlined with pearls. She carried a bouquet of white daisies.

Mrs. Norris V. Merkle, sister of the bride, was matron of honor. She wore a gown of white organza over pink taffeta, basque bo-

dice and matching stole. She wore a wide brimmed hat and carried a bouquet of white daisies. Bridesmaids were Miss Jeanne Ironmonger, sister of the bridegroom, and Miss Joan Elmhurst Buzzy. They wore gowns similar to that of the matron of honor. Miss Ironmonger's was of blue taffeta and Miss Buzzy's of orchid taffeta. Their hats and flowers were like those of the matron of honor.

Miss Mary Carol Marshall was flower girl, wearing yellow organza and carrying a basket of rose petals.

Charles Wesley Ironmonger was best man. Groomsmen were Robert J. Aron, Rudy Phelps, Norris V. Merkle and Richard Trowbridge.

After the ceremony a reception was held in the social hall of the church. Later Mr. and Mrs. Ironmonger left for a wedding trip to Washington. The bride traveled in a powder blue linen dress, navy and white petticoats and a corsage of spring flowers.

Miss Mary P. Bridges is spending some time in New York.

### "BOAT" OR "SHIP"

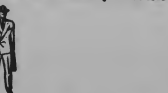

While in modern parlance, the layman uses "boat" and "ship" interchangeably, modern sailors usually use "boat" to mean a vessel which can be hoisted to the deck of a "ship," and "ship" to mean any vessel which cannot be so hoisted. But, originally, the term "ship" was used to mean a vessel which was "ship-rigged" that is, "square-rigged."

## Underpass at Intersection Gets Approval

The Virginia State Department of Highways announced this week plans for construction of an underpass at the intersection of Laskin Road and the Virginia Beach Boulevard.

Final allocation of funds are included in the latest announcement in the department's program budgeted for the fiscal year beginning July 1.

The Laskin Road project has been allotted \$400,000 and bids on the work are to be advertised this summer and actual work is expected to begin in the fall. Work on the intersection will be begun after completion of the four lane road to that point.

The proposed project, when completed will eliminate one of the most dangerous intersections in Tidewater Virginia.

The project will carry the westbound lane of Laskin Road over the eastbound lane of the boulevard. A complicated road division system, extending about two-tenths of a mile east and west of the intersection, will enable the other lane in each route to swing around the overpass.

## County School Building Program Forces Upping of Tax Rates

Lynnhaven and Kempsville Municipal Districts will bear the heaviest load of the increased tax rates approved Monday by the Princess Anne County Board of Supervisors. The budget as approved will increase the 1953-54 total by nearly \$600,000, and is approximately \$2,300,000 for the new fiscal year beginning July 1.

Increased costs of operation of the county's business forced a new tax scale above that of the past fiscal year, and is based on an assessed valuation on property of \$15,438,000, an increase of practically \$700,000 over previous assessed valuations.

Broken down by districts, the rates as approved will be: Lynnhaven: \$0.70 per \$100 assessed valuation, which includes a \$0.10 increase for the new fiscal year.

Kempsville: \$0.60 per \$100 assessed valuation, which includes a \$0.10 increase for the new fiscal year. A 25 cent assessment for mosquito control.

Pungo: \$0.80 per \$100 of assessed valuation.

Blackwater: \$0.50 per \$100 of assessed valuation.

Chief among the causes of the increased budget were schools. An extensive expansion program is now underway and plans are being laid for even greater building, and amortization of school bonds issued as prime factor in determining the tax rates.

New discussion was had on the proposed amendments to the present trailer camp ordinance, and opinions were voiced that certain new regulations should be added to the law as it now stands.

Civic groups in the various sections of the county have voiced approval of the proposed changes in trailer camp laws. J. Peter Holland, III, a member of the County Planning Commission, declared, and further study of the proposed changes was deemed in order.

A contract for the installation of a water line from 63rd Street to Fort Story was awarded C.H. Lawson, Williamsburg, who was low bidder at \$51,987.68. The price was considered "good" by John McGeough, County Engineer. Other bids ranged up to \$73,000.

## Allen Gettel Top Hurler on Coast

Allen Gettel, native of Kempsville, is rated the best pitcher in the Pacific Coast League this season and has already hung up 8 victories for the Oakland Oaks.

Gettel's latest triumph was a 12-inning affair against the powerful San Diego Padres last week. Gettel formerly played with the Cleveland Indians of the American League and the New York Giants of the National circuit.

The talented baseball star is a nephew of E. A. Gettel of Kempsville. Young Gettel also saw service with the Norfolk Tars of the Piedmont League where he posted an impressive record that sent him to the major leagues.

## Bid Accepted for Erosion Bonds By City Council

Eastman, Dillon and Company, of New York, was low bidder on a \$200,000 bond issue for the seawall and erosion control project, according to an announcement released by the Virginia Beach City Council.

Two bids were opened by the Council at its special meeting on Tuesday, the other being from Alex Brown and Son, of Baltimore, bidding for a syndicate of eight firms including the Investment Corporation of Norfolk.

The low bidder offered an interest rate of 3.8437 per cent, and the other figure bid was 3.93 per cent.

The bonds will mature serially through 1958 and the net interest for the life of the bonds will be \$276,750.

At the same time it was learned that City Council has agreed to employ six special officers to patrol the boardwalk and sand beach. The action came as a result of complaints of "misconduct and rowdiness" on the water front.

## Army to Permit Tapping of Story Water Mains

H. E. Halstead, City Sergeant, who has been serving on a special committee appointed by the Virginia Beach City Council, and seeking to improve the water supply in Virginia Beach, reported this week that the Army has agreed to allow the tapping of the Fort Story mains to increase the flow in the North end.

Halstead revealed that a proposal from General P. C. Hahn, USA, chief of staff to the commanding general of the Second Army at Fort Meade, Md., had cleared the way for the tapping. The granting of permission is the outgrowth of a trip to Washington a few weeks ago by City and County officials and members of the Virginia Beach Sanitation Commission. Interviews with the proper officials were arranged by Senator Harry Flood Byrd. The water situation in summer months has long been critical, and it will be several months before steps can be being undertaken to alleviate what will be completed.

The tapping of the Fort Story main now awaits only the arrival of official confirmation of the permissive phone call by Fort officials. A. Worth Petty, City Director of Public Works announces.

## Feather Tankage Found Successful

Feathers in feather beds are traditional; feathers in fertilizer are nothing new but feathers in feed—well, even that is being tried successfully by animal husbandmen at VPI Agricultural Experiment Station.

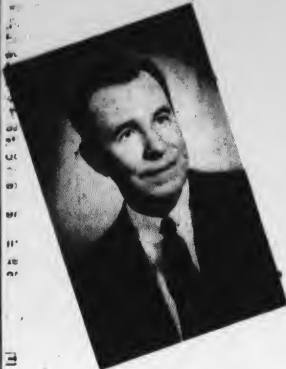

The researchers tried seven supplements with protein from three different sources during the wintering period from December 9 to mid-April with heifer calves.

They say feather tankage needs further testing, but seems promising as a cheap source of protein for cattle. Feather tankage is a manufactured material used mostly as a source of organic nitrogen in fertilizers. It contains about 84 percent crude pro-

tein. Daily gains of cattle on the various supplements tried were: Purdue A, .69 pound; MEV (a special mixture, one pound of which supplied the daily mineral and vitamin requirements of growing cattle with extra energy for use of roughage) and soybean meal, .85; soybean meal and corn and cob meal, .68; cottonseed meal and corn

meal, and corn and cob meal, .68; feather tankage and MEV, .57 and feather tankage and corn and cob meal, .65 pound. The calves were individually fed 4 pounds of mixed hay, 5 pounds of corn silage, and 3 pounds of supplement per head per day. They were in the barn from 4:00 p.m. to 8:30 a.m.

### SOUND THINKING

Everywhere on this page is a letter written by the Honorable Harry B. Davis in which he evidences a keen interest in several very worthwhile objectives for this area. The Legislature expresses a deep interest in securing a four-year accredited college for this area and gives sound reasons why the area should have such an educational institution.

Davis contends that the populous nature of this area alone warrants a four-year college and points out that hardly any area in the Nation of comparable population is without a college. He points up the fact that those youngsters financially unable to attend colleges would have an opportunity to attend if one were located nearer their homes.

The veteran legislator points up another fine objective in that he would like to see a modern and well equipped sanatorium for the treatment of tuberculosis. He further states that as a member of the General Assembly Appropriations Committee he will lend his efforts to securing an appropriation for this much needed institution.

The Princess Anne Delegate also shows a marked interest in other phases of education and has worked very closely with the Virginia Education Association and the State Board of Education. In this respect he has worked to increase the pay scale of teachers. He secured an amendment to the 1952 Appropriations Bill that gave Princess Anne County approximately \$100,000 additional for teachers' pay from the State.

Davis serves as chairman of the Education Committee and is a member of the Appropriations Committee which places him in a very favorable position to help accomplish the points he has covered in his very fine letter. We recommend the letter to our readers.

### A DISTINCT LOSS

On July 1, Princess Anne County will lose the services of two able workers who have meant much to the rural life of the community. Both County Farm Agent Henry W. Ozlin, and Home Demonstration Agent Miss Jane Craig, announced their retirement from the county's service as of that date. Mr. Ozlin, after 35 years in the service of the county, will retire. Miss Craig is resigning to accept a post closer to her home. She has served the county women for over five years.

Replacements are at hand for both vacancies, but in our opinion, the new folks will have to "dig in" to even make a pretense of "filling the shoes" of these predecessors. Mr. Hart, who will take over the County Agent's post, is now assistant to Mr. Ozlin, and knows the work well. May he strive to attain the goals of friendship and good will Mr. Ozlin has made over the past three and a half decades. It is a challenging goal.

Mrs. Deal, who will be the new Demonstration Agent, comes from Norfolk County, and her past experience has well fitted her for her new position. She will find her way made smooth by the excellent work accomplished by Miss Craig.

Honor to the departing . . . and hail to those who follow in their ways.

### "UNTO THE LEAST . . ."

The photograph which we carry on page one, section two of this issue, typifies a great need. The caption reads: "He Needs Your Help to Get Started" . . . and words were never more true. For the "young fellow" in that picture is just beginning the long and arduous task of climbing the stairway of life—alone in a modern world where the attitude all too often is "every man for himself."

Giving that young man a hand is you, working through the Children's Home Society, which takes the orphaned and sees that they get started in life. It is not a big organization, as charitable organizations go, but if there is anything bigger in all this universe than getting a child off to a right start, we have yet to hear of it.

There are "drives" and still more "drives" for funds, but with very little ballyhoo, and no waste motion, the Children's Home Society appeals to your heart, the heart that loves YOUR home and YOUR children, and asks "can't you spare a little for him . . . help get him started?" "Even the least of these . . ."

### MR. STANLEY'S RECORD

MR. CHARLES FENWICK has a very poor case in raising a question about the attention to duty in the last Congress of his opponent for the gubernatorial nomination, MR. TOM STANLEY.

An examination of the record shows that Mr. Stanley had a voting record of 82 per cent in the 82nd Congress. The average of all House Democrats was 80.56 per cent. Thus Mr. Stanley does not appear at a disadvantage. It is just as well that he be put in the proper light in relation to the performance of his Democratic colleagues.

No case can be made against Mr. Stanley's sense of responsibility and attention to duty by anybody. As a member of the Virginia House of Delegates, as speaker of the House, as congressman from the Fifth District, he has exhibited over the years a high sense of obligation to his public trust. That quality is of course essential in a governor of the Commonwealth. Mr. Stanley certainly has it in a superlative degree.

## THIS DAY OF MEMORY

**WASHINGTON . . .**  
**AS VIEWED BY YOUR SENATOR**  
*A. Willis Robertson*

In the first of these columns, which I wrote for publication during the week of January 5, 1953, I said: "The most immediately pressing problem which must be solved largely by the Congress is that of approaching a balanced budget. I say 'approaching' because even the most optimistic economy advocates realize that the budget cannot be balanced immediately without postponing even the limited tax relief which the people of the nation have been led to expect."

Again in my column for the week of January 18th I pointed out that all but about \$10 billion in the 1954 budget prepared by President Truman was for national security and related purposes and that our ability to cut was limited by the fixed requirements for such essentials as postal service, making and enforcing laws, collecting taxes, managing the public debt and administering federal property records. "It is apparent, therefore," I wrote, "that whether or not spending can be kept anywhere near the estimated federal income figure for next year x x x will depend largely on what President Eisenhower feels we need to spend for our national defense and security."

Last week President Eisenhower sent to the Congress a message on the budget in which he said: "To reduce expenditures enough to balance the 1954 budget would require more drastic curtailment of our national security programs than we can safely afford in today's world."

The President gave figures which indicated that if all the

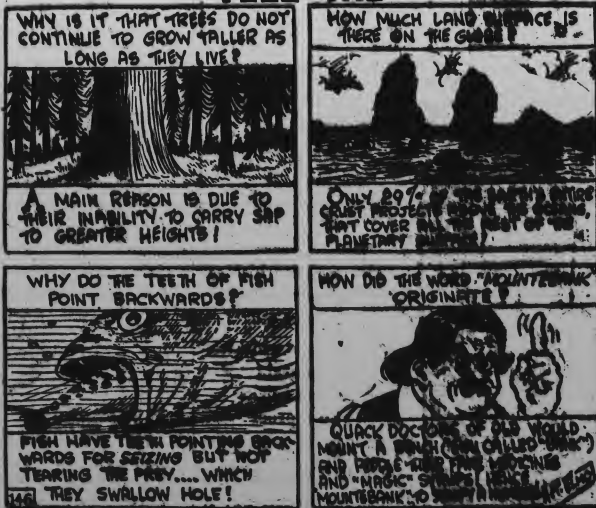

cuts below the Truman proposals which he felt justified in recommending were made the government still would spend \$9.8 billion more than it took in during the year starting next June unless existing tax laws are changed. He recommended letting the excess profits tax run to the end of 1953 instead of the middle of this year, and indefinite continuation of the 5-percent surtax on corporate income, and various war-time excise taxes which were supposed to end next April. He also asked that the scheduled reduction of around 10 percent of personal income taxes become effective next January, as provided by the present law, instead of being moved up to July, as some members of Congress have proposed.

If these recommendations are adopted, the President said there still would be a bookkeeping excess of \$3.6 billion in federal spending as compared with collections during the 1954 fiscal year although the cash shortage would be only \$2.8 billion because of collectors which would be credited to social security or other

I have been intensely interested in securing for the Norfolk area a four-year accredited college. The Norfolk area is the most populous of any area in the State, if not the entire Nation, which does not have a four-year college. Many of our young people are unable to avail themselves of a college education except at a great financial sacrifice to their parents. A small college in the Norfolk area would make it possible for these young people with limited financial means to secure a college education at home.

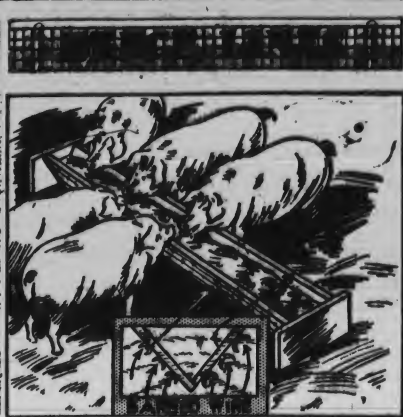

I am also interested in securing for our area a modern and well equipped tuberculosis sanatorium. As a member of the Appropriations Committee I will do all in my power to secure an appropriation for this much-needed institution.

I have worked very closely with the Virginia Education Association and the State Board of Education to the end that our program of public education in Virginia might be improved and salaries and other benefits for teachers might be such as to attract and hold our finest and most capable young people for the teaching profession. This problem will be one of the major concerns of the 1954 session of the legislature. As Chairman of the Education Committee and a member of the Appropriations Committee, it will be my privilege to work with the Virginia Education Association and the State Board of Education in attaining the new objectives of these groups. These objectives, if accomplished, will do much to improve the quality of public education in Virginia.

These are but a few of the many problems facing our local community and the state as a whole. Sincerely,  
Harry B. Davis

special funds.

All of this may be disappointing to some who leaned too heavily on campaign promises of quick action to balance the budget and reduce taxes but the President's realistic acceptance of hard facts which were well known to those of us who have had to deal with them on the appropriation committees will make it easier to proceed with the necessary task of correcting what he correctly called "an artificially unsound state of financial affairs."

## Polio Don't Wait Says Company

Waiting to buy polio insurance until there's an outbreak of the disease in your community is like waiting until your neighbor's house is burning to buy fire insurance," says C. W. Leftwich, vice president-actuarial of the Farm Bureau Insurance Companies, one of the nation's largest writers of polio insurance.

To buy or not to buy is a matter for individual decision, he points out, but the time to decide

is before the polio "season" arrives. "A high proportion of all polio policies taken out since the coverage was introduced nationally in 1949 have been bought during the summer months, the polio season. That's really a modified form of 'scarce buying' and it has been the main cause of the general boost in polio insurance rates since 1949. Such scarce buying results in a concentration of policies in epidemic areas, thus defeating a basic principle of insurance—spreading the risk."

This same principle, spreading

### Courthouse 4-Hers Observe Rural Life Sunday

Court House 4-H Club held its Rural Life Sunday on May 10 at St. John's Church. We opened with the prayer "Above the Hills of Time," played by Deanna Jones. Everyone stood and sang "My Mother's Bible." Rev. Meade led us in prayer. Several girls gave two playlets entitled "4-H Club" and "My Mother's All." Four girls took up the offering, after which Rev. Meade gave the sermon pertaining to Mother's Day. All of the 4-H members present stood and sang "God Bless Our Mothers." We closed with the benediction lead by Rev. Meade.

the risk, introduces another reason for early buying. "If you wait too long," Mr. Leftwich says, "you might not be able to get polio insurance when you want it. That's because some insurance companies may find it necessary to discontinue writing in an epidemic area."

## Virginians Send Huge Shipment of Day Old Chicks to Iran; Re-stock Ravaged Flocks

The biggest question "Am I my brother's keeper?" was answered Friday night by the people of Virginia in the form of a shipment of 30,000 day-old New Hampshire Red Baby Chicks, donated or purchased with contributed funds, for the restocking of Iran's impoverished poultry industry.

The chicks were dedicated Friday night at Harrisonburg with simple rites and were taken by truck to New York's Idlewild Airport where KLM Royal Dutch Airlines had a specially fitted plane waiting to take them on the 30-hour hop to Teheran, Iran's capital.

The ceremony at the Shenk Hatchery, Harrisonburg, Va., was attended by representatives of the four organizations which are jointly handling this international goodwill operation. They are the Virginia Council of Churches, in charge of procuring the chicks; the Interfaith Relief Project, Inc., which figured as the shipper on consignment bills of lading and which shared in the cost of purchasing the chicks; CROP which in Virginia operates through the Virginia Council of Churches in the collection of foodstuff for needy people overseas; and TCA, the Technical Cooperation Administration, which paid air freight for the chicks from New York to Teheran and lends its trained personnel in Iran to oversee distribution and breeding of the gift from Virginia.

The dedication service at Harrisonburg was presided over by the Rev. Dr. E. E. Miller, minister of the Evangelical United Brethren Church, Dayton, Va., and who is CROP Chairman for Rockingham County. Ministers of the Harrisonburg area were present and had a part in this service. Among those who spoke briefly were Dr. Minor C. Miller, executive secretary of the Virginia Council of Churches; the Rev. Clarence M. Brown, State Director of CROP; Mr. J. N. Byler representing the Interfaith Relief Project Committee and Mr. J. Paul Williams, editor of the Virginia Poultryman magazine.

Coordination for the collection of the chicks was handled by the Virginia Poultry Federation of which Mr. R. F. Frasier is the Executive Secretary.

The baby chicks will be placed 20 to a farm as far as they will go. The farmer receiving these gifts will agree to give 20 chicks from his flock or 40 fertilized eggs next year to a farmer who did not participate in this project. Thus, this baby chick project will become somewhat a self-help program.

## Rev. Mrs. Raney Plan Open House

The Rev. and Mrs. William N. Raney will hold open house tomorrow evening, May 28, from 8 to 10 p. m. in the new parsonage.

Members of the Scott Memorial Methodist Church, friends and neighbors of the county are extended a most sincere invitation to attend.

The new parsonage is located on North Virginia Avenue, Ocean.

## Beach & Cabana Club Enjoying Mid-Season Rush

The Cavalier's Beach and Cabana Club these late spring days present all the appearance of midseason with the beach dotted with colorful umbrellas, lounge and beach apparel—the Saturday afternoon tea-dance which after July 3rd will become a daily event, and the evening dances on

the ocean-front dance floor to the music of Bill Cooper and his orchestra.

The moon hour finds bathers—both sun and water—at the luncheon tables surrounding the dance floor, shaded by the new sun yellow awnings.

A succession of business groups continue to come to the CAVALLIER for their spring conference, one of the largest being The Food Service Equipment Industry convening there May 24-28.

A feature of their social program was the order and fish-fry Monday night when the recently erected outdoor barbecue at the rear of the ballroom was put into service, the supper attended by approximately 350. The Hampton Choir later entertained the group with a musical program.

The Cavalier presented the Booker T. Washington Glee Club of Norfolk in a program of spirituals Sunday evening in The Sir Walter Raleigh lounge.

## Refurbished Seaside Park Opens Tomorrow; Special Attractions

Fireworks will usher in the 1953 season at Seaside Amusement Park, Virginia Beach, Virginia, when it opens on Friday, May 29th.

The park will present an entirely new appearance inaugurating a condensed fun-packed amusement center, offering fifty amusement attractions of all kinds, including major rides and a kiddie section with five rides for the junior pleasure seekers. One-third of the park has been demolished and all of the operations are provided in a two block area instead of three, as heretofore.

The park now has a covered outside, as well as an inside, boardwalk and features free dancing 4th and Sunday, September 6th, nightly to the orchestra of Al DeHannis who has played some of the largest hotels in the nation. He has had the opportunity of accompanying such performers as Danny Thomas, Martha Raye, for an entire week. Other attractions Star, Rosemary Clooney and

## Beach Beckons Folks To 'Playland, U.S.A.'

A new beach and other added facilities at Virginia Beach are beckoning the vacationist with a yen for the seashore and salt water breezes.

Reports from the resort community on the Atlantic point out many new improvements and expansions in the hotels, motels and tourist courts that will add to the already extensive run of activities available at Virginia Beach.

Outstanding among the improvements, of course, is the new man-made beach at the resort, where tons and tons of sand are pumped from a nearby inlet onto the beach fronting the long concrete boardwalk. The expensive and extensive project, undertaken because erosion had beaten away parts of the beautiful beach, will offer vacationists a wide, long stretch of sand.

Although the work was mostly completed last year, this year will mark the first full summer the new beach is available for the huge beach umbrellas, the parasols, out for a sunbather's shade with a handkerchief to build a sand castle.

Speaking of children, Virginia Beach is not a resort for its popularity as a family resort. Many of the men in Korea or for infantile analysis which really has its busy season in the summer months, Mrs. Arthur S. Hill indicated today when she announced another call for volunteers to assist at visits of the Red Cross Bloodmobile. Mrs. Hill, chairman of the Nurse's Aides of Princess Anne County Chapter, A.R.C., is requesting volunteers to contact her at 1948-W out at the resort. Many activities are carried out daily for their amusement. For instance, golfing when the Civitan Club sponsored Bloodmobile visit will attempt to match or break its recently set record of 125 pints.

Also, there is boating, hiking, tennis, fishing—in fresh or salt water, swimming and dancing. A person can rest assured that the local residents here will be happy to give blood the evening, if he prefers the rigorous schedule.

#### MEALS FOR MEN

What does your man like to eat? The other day I was reading an article on "What Do Men Like to Eat?" and I thought you might like to know about it. It pointed out the difference in food preferences between men and women.

According to the article, a woman likes something unusual, the same as she wants a hat with a special veil, or pose, or dress with a different line. When choosing food in a restaurant or tea room women are more likely to choose a creamed or au gratin dish and they want it served attractively—and you know how that parsley dresses it up. A garnish is usually very important as to how much "eye appeal" the dish may have. But with our men—it's surely different—just give them, shall we say, "good red meat and plenty of it." You can leave the parsley off—just bring on the soup, beef steak, roast beef or chops, potatoes, a favorite vegetable, apple pie, maybe, a good cup of coffee, and your man will be mighty happy, I'm sure.

With beef still plentiful it's so much easier to plan your meals. Brush up on techniques for preparing the masculine favorites. First, let's chat a moment about roast beef: The best roast can

be all too easily ruined by cooking it incorrectly. Do use a low temperature, set your oven at 300 degrees, and keep it there throughout the cooking of the roast. For roasting a standing rib roast, put the standing rib in the oven with the fat side up and the ribs down. If your husband, in particular, is a roast meat thermometer. In about the degree of "doneness" of his roast meat, be sure you invest it into the thickest muscle—but do not let it rest on bone or in fat. Place the roast in the oven with very little water and without cover.

You can estimate roasting time by figuring minutes per pound: For rare beef allow eighteen to twenty minutes per pound; for medium, twenty-two to twenty-five minutes; and for well-done, twenty-seven to thirty minutes. Your roast meat thermometer is clearly marked for the degrees of doneness—so you'll know exactly when to take the roast from the oven.

#### Broiling

Another favorite way of preparing meats is by broiling. I believe steaks and chops just about top most men's list of favorite foods. It's mighty important to broil properly. Arrange steaks or chops, cut three-fourths to one

## Merry Matrons

By ALICE

Clara Mergler, Nancy Strickland and Edith Newell are three merry business and professional women club members in Richmond last weekend to represent the Princess Anne club at the State Convention. They heard two brilliant women speakers who really were a credit to business women everywhere. They were Helen Irwin, outstanding executive of a life insurance company located in Iowa, who is the national president of B & F W and a Scorsville club member as well. The other was the owner and head of the Marjorie Webster Junior College of Washington, Marjorie Webster, who gave the most dramatic and yet dynamic speech your Albee has heard. A woman give out in many a day.

"Dot" Miller, a Colonial Ready-To-Wear owner, is toying with a new locker service idea instead of the dress shop. "Bessie" Howard, the Beach's most luscious blonde merry matron, looked like one of her own daughters, on a rainy day in Norfolk, wearing a grey-and-blue checked rainy day outfit. She has the bluest eyes and is one of the best workers in the Star of the Sea Women's Circle. Always doing things for other folks, is "Bessie."

Leslie Savage is making all the ladies happy because she is bringing in Washington while B. M. Stanton family is wintering here. Their big Beach home on the ocean front is lively as all set out on weekends when the merry family comes down from hot Washington for the cool Beach breeze.

Mrs. Lester T. Gayle, who was staging chairman of the recent Princess Anne Garden Rose Show, set a special hat's off tip for the wonderful work she did. Her like yellow and always wears it during rose show time. Which is nice!

"Bertie" Norwalk has been knitting a stunning royal blue French wool stole—with a sensational gold border—for Mrs. Albee to wear on the boulevards of gay Paris. And that we'll do and dare those French designers to tell us it's not prettier than anything we'll see in Paris!

## Use Surplus Milk On Your Table

Use surplus milk at home—in the form of ice cream, cheese and butter.

That's the advice to rural homemakers from Guy J. Nagotte, associate dairy husbandman at VPI, who says that surplus milk would be of greater value to the farm family, and also to the dairy industry, if more of the surplus were used on the farm. Milk and milk products have no substitutes in reducing the cost of the family food budget. They provide more food nutrients per pound than any other food and can be served in many different forms, Nagotte says. Since milk products are simple and easy to make at home, many farm homemakers keep a supply for the table year around. Instructions on making various milk products are available in a bulletin, "Dairy Products You Can Make at Home." Ask your county home demonstration agent for a free copy.

Inch thick, on a broiler rack and place two inches from heat. Do follow reliable time table. Broil until browned on one side, season and turn and broil on the other side for remaining time.

Please do serve broiled steaks and chops—at once. Have the rest of the meal on the table, everyone seated and then bring on the gloriously broiled steak or chops accompanied by plates that have been "warmed up"—don't put your perfectly broiled meats on cold plates.

#### Porterhouse "Stand-In"

If you're buying wisely, these days you'll broil not only steaks and chops, but here's a "Porterhouse Steak Stand-In." Mold your favorite ground beef mixture to resemble a porterhouse steak. Have mixture about one and one-half inches thick, place on broiler pan and place broiler so that meat will be two or three inches from the heat (I like it about three inches from heat). When one side is nicely browned, turn over and broil the other side. Plan to cook it at least ten minutes on each side. It's mighty good, and a pretty good stand-in.

Bye now, see you next week!

## STRAIGHT From the SHOULDER . . . Fashion, That Is!

REVIVAL OF COLORED NYLONS—If America's first lady, Mamie Eisenhower, and the famous designer, Jacques Heim, have anything to do with it, colored nylons will become the latest vogue! Both of these internationally famous people seem to be setting a trend. It was recently made known by Mamie's secretary that Mamie prefers blues and blacks in her hosiery wardrobe and rarely wears any other colors. Jacques Heim, at the showing of his newest collection last week in Paris, caused a sensation when his models wore matching colored nylon stockings, each at turquoise and a bright navy pink with formal gowns. Shortly after nylon stockings made their welcome reappearance at the end of World War II, American hosiery manufacturers brought out pastel-

colored nylons but apparently this innovation was too new and startling at that time. Now that both Mrs. Eisenhower and the famous Parisian designer have put not only their seal of approval but their preference, for deep shades and pastel shades of nylons, will American women follow suit? I think they will. After all, when you stop to think of it, soft pastel pink or blue stockings with a flossy pink or blue dance dress might look extremely pretty and very feminine, to say the least. In the near future, the American woman might very well put matching colored stockings right along with her new colorful outfit!

ANNE FOGARTY'S "AMERICAN FOLIO"—Diminutive Anne Fogarty—the gal who introduced the wear-many-petticoats vogue

—has just introduced her own portfolio of Americana, for exhibition throughout the summer on the smart American girl. She calls it a Sunday, Monday and Tuesday collection and there is a dress for every day in the week for every locale on the summer scene, too! Sunday-inspired is her new fashion-important Choir Boy silhouette. For Monday and every day, her posier prints, water colors, clan plaids and Dark Town cottons are featured. Anne Fogarty is always interpreting fashion for the woman with young ideas, you may be sure. Created in the U. S. A., designed to wrap the American girl in the American look, clean-cut, functional and feminine, and as colorful as an art folio, as varied as the summer climate, Miss Fogarty's new collection is definitely all American, as American as a straw hat reviewer!

MOLLIE PARNIS NECKLINES AND SUCH—Any summer is open season in necklines and Mollie Parnis concentrates this summer on making the 1953 neckline alluring and easy-to-wear as well as cool. The "slow curve" describes most of them, for they neither plunge nor stretch straight across the shoulders. The wing neckline rises in lovely curves from a point at the breast bone. The white "refill," a crisp refreshment inside the open neckline of printed silks and dark cottons is a button-in band or flange of permanently starched white pique or linen. The ring neckline surrounds its shallow curve with a standing cuff of the fabric.

SIMPSON'S COLORS AND TRIMS—The murky, dusty or merely pale colors are not for Cotton Award Winner Adele Simpson this year. She has chosen light-filled yet positive hues, notably a middle shade of blue called "Inner Space" blue and a deep strong color called "Outer Space" blue, tawny golden beiges, and the strong color contrast of black with slathers of white, brown and black or grey and black. As always, Adele Simpson decorates her dresses elaborately without making them look "rimmed up" or overdone. Great swirls of cotton cording, small necklines of myriad tucks gently form what she calls "rhythmic designs" to cover an entire dress. "Mobile furniture" of fluffy cot-

ton ball fringes or shimmering "star dust" sequins form lovely patterns of their own. MEMOS ON FASHION—Coverage of some of the mid-summer Paris showings and notes of fashion interest will be air-mailed back to the Sun-News from your Albee, who will arrive in Paris on June 6th. Beginning June 12, and every Monday, Wednesday and Friday mornings, at 9 a. m., during the "Women's World" program over WTAR, your Albee's secretary, Barbara Day, will read "Albee's Letter From Paris" with up-to-the-minute reports of here and there in France. ## PTA Gets Stung by a "Bee"

The local PTA is feeling sheepish today. Seems they complained the youngsters weren't learning enough. Said they couldn't even spell. So the kids challenged them to a spelling bee.

"I was captain of the PTA-ers," "Doc" Brown told me. "Both teams made the first round just fine. But on the second round Speedy Taylor went down on 'efficiency.' Then his boy Chip, who happened to be next on the school team, rattled it right off. From then on it was murder!"

So now "Doc" says that the whole PTA is thinking of sign-

ing up for night school! From where I sit, it always pays to look and think before you leap to conclusions. Take those folks who would deny a temperate glass of beer without a memento's thought. They wouldn't want to be in their own personal performance, for, say, butterfins. It's a good idea to think twice before you "spell out" rules for your neighbor.

### Seaview Beach Opens Friday

Seaview Beach begins its 1953 season on Friday, May 29th, the eve of Memorial Day. The season will be the 7th year that Seaview Beach has been operated as an amusement park. It is the outstanding Negro park in the country and the first to have new and original riding devices. There are five major rides in the park.

Last year the park installed new concrete walkways, and this year the park has extended the concrete on to the beach where a new refreshment stand is being built.

For the small fry, in addition to the Merry-Go-Round and boat ride, a live pony ring is included in this year's plans and should prove popular. For the teen-agers and adults, the park has a battery of steel ball alleys which are found only in the most progressive amusement parks. All of the picnic benches in the park have been decorated in gay summer colors and it is certain the picnickers will enjoy the improvements. The picnic section is installed with tables and benches to accommodate 1,000 persons at a time. In the center of this area is constructed a 30 x 30 foot elevated stage on which free acts and musical bands will appear on occasion.

Famous name bands have been booked throughout the season and a new one will appear each week.

(Continued from Page One)

Plans will be booked and announcements of the dates will be made later.

The picnic area will be in the new recreational building in the south end of the park. Provision has been made for overflow picnic to use picnic tables and benches under the new boardwalk covering, overlooking the ocean. Over 2,000 persons can be

accommodated, all under cover. Many country schools, churches, clubs, and firms hold their annual outings here.

The former ocean side wooden boardwalk and all approaches have been replaced with concrete walks and all the park buildings have been renovated and repainted. The popular Fascination amusement game will again be in operation. This is a new type game which gives each player an opportunity to compete against other contestants in a group.

There is a new ornamental wall in the center of 31st Street which balances the two blocks of the amusement area. The Council of Garden Clubs of Virginia Beach and Princess Anne County provide plantings within the area of the walls.

One of the special attractions which will be introduced this year, is a cowboy ride being shown for the first time in America.

## Bloodmobile Visits Military Posts In County; Donor Rate High

Visits to two military establishments in Princess Anne County highlighted this week's activities of the Red Cross Bloodmobile in this area. On Monday the Bloodmobile obtained its quota of 100 pints at Oceana Air Base where volunteer workers from Princess Anne County Chapter, American Red Cross, assisted the Bloodmobile's professional crew of doctors and nurses.

The need for parents to contribute their blood was indicated by Mrs. Pearl Mallory, local Red Cross executive secretary, who emphasized that all the gamma globulin used in the national field tests against polio comes from the American Red Cross blood. If parents hope to aid in the fight against the dreaded disease they must contribute blood.

Donor's visit to Little Creek Amphibious Base found volunteer workers from Ocean Park Women's Club with Mrs. W. J. Winn, chairman in charge. A second visit of the Bloodmobile today at Little Creek found members of the Kempsville Women's Club as volunteer workers under the direction of Mrs. Walker Hovorn, Jr., club president.

It was pointed out today by Mrs. Fred S. Perkins, chairman of the local Red Cross Chapter Blood program, that all blood received from the military establishments goes directly to meet the needs of the armed forces. Citizens who look forward to the continued experimentation and wider use of the polio vaccine as well as to the free blood distributed through Red Cross channels must make their own contributions when the Bloodmobile visits the local community. Mrs. Perkins reminds residents of Virginia Beach that the Bloodmobile will be at the Community House Friday, June 19.

The need for parents to contribute their blood was indicated by Mrs. Pearl Mallory, local Red Cross executive secretary, who emphasized that all the gamma globulin used in the national field tests against polio comes from the American Red Cross blood. "Last year, the Society had 280 children in care," Mrs. Mangfield said. "Of these, 24 were placed for adoption and 76 others discharged from care because
